

1946 - Two trees were planted out
as a test: one in his yard & the
other in the yard of Mrs Corning
a mile or so from here. They
have received good attention. One
in his yard now 20 ft high, 9 or 10
inches in diameter & bearing for
least 3 or 4 yrs of immature nuts.
It also shows blight. Has not
seen Mrs Corning's tree for 3 or 4
years, but then it "was doing
better than mine!"
