

Maryville, Tenn.
Edward C. Davis
Porter High School (teacher)
Route 3

4/2/52-G.B. Shivery, Extension Forester, Knoxville, Tenn., advised that he obtained 5000 b/r chestnuts from A. G. Heinsohn, a Knoxville capitalist who had grown these 2-year-old seedlings on his estate near Gatlinburg; these trees were difficult to dispose of so Mr. Heinsohn turned them over to Mr. Davis and the State Division of Forestry. Spencer B. Chase, TVA, said the seed were from a planting of Dr. George S. Jones, Alabama.

Mr. Davis gave 1000 of the trees to Marion Tipton and ^{700 to} H. E. Ledbetter, both of Maryville, R.F.D. #3. The remainder were distributed in small bunches, mostly to high school students. The trees that Mr. Shivery saw were set out at a 12-foot spacing.

Cards have been made for Tipton and Ledbetter.
