

## **CAES Seminar Series**

### **“Purine and pyrimidine transporters in plants and select microbes”**

**Dr. Neil Schultes**

Department of Plant Pathology and Ecology  
CT Agricultural Experiment Station

Wednesday, November 25, 2015  
12:00 noon to 1:00 p.m.

Pizza, salad, and coffee will be available at 11:45 a.m.

Jones Auditorium  
The Connecticut Agricultural Experiment Station  
123 Huntington Street, New Haven, CT

Purines and pyrimidines are nitrogen-rich molecules called nucleobases that make up DNA and are central to plant metabolism. His presentation will cover the function of nucleobase transporters from an evolutionary view in plants and microbes.
