Vision
Creativity

Supp

Each day there are over 3,000 DCF
Youth In Care attending schools
across Connecticut. According to
2015 SBAC data with over 900
students assessed, less than 20%
reached a proficiency level in
Reading and less than 11% reached
a proficiency level in Math.

*"We must be creative to change
the results."*

Virtual Academy

**Innovative Strategies
to Reach Youth**

Certified Teacher Locations

Region 1 – Bridgeport and Norwalk

Region 2 – New Haven

Region 3 – Middletown

Region 4 – Hartford

Region 5 – Waterbury

Region 6 – New Britain

Virtual Academy Goals:

- Personalized and individualized academic plans.
- Students will have access to Math and English remediation classes.
- Students will have access to online core content area classes in ELA, Math, Science and Social Studies.
- Students will have access to elective courses, testing prep courses, and trade prep courses.
- Students who are on a diploma track will fulfill the state requirements for graduation.
- Students will demonstrate proficiency in the understanding and application of skills and concepts.

Virtual Academy Students Will Have Online Access To:

Credit Recovery:

As Virtual Academy is competency based, students will take prescriptive exams to assess missing standards. This will maximize time on task regaining previously lost credits.

Remediation:

Each student will take a placement assessment upon entrance to the academy and be aligned, as necessary, to ELA or Math remediation classes.

Elective Courses:

Virtual Academy offers a complete course catalog of electives aligned to state and national standards.

A New Way To Learn And Succeed.
