D-2 Agency Legislative Proposal- 2018 Session (Dist. 4)

Leslie O'Brien, Legislative Program Director for the Department of Consumer Protection spoke of the agency's legislative proposal to Sec: 20-306a and Sec. 20-306b of the practice of or offering the practice of engineering, land surveying or the joint practice to include architecture and landscape architecture under the corporate form as a limited liability company. The proposal stated that the individual members of a limited liability company or owners of a corporation which business entity shall practice or offer to practice engineering or land surveying in this state are not required to be individually licensed under the provisions of this chapter.

The Board stated that this proposal of not having ownership by licensed professionals is not in the best interest of the health and safety to the public. The Board stated that they would like to revise the draft to have the professionals have control by owning at least 2/3 or 51% of the shares.
