¹ Actual, direct personal services on a state payroll. Examples of items covered include regular salaries, overtime, payments for vacation and sick leave, longevity and shift differential.

² Operating expenses as well as miscellaneous purposes not included in some other appropriate category. Items included are contractual services, commodities (supplies) and sundry charges.

³ Items included are office equipment, motor vehicles, general plant equipment, education, medical, telecommunications and data processing.

Explanation of State Impact: There are no additional administrative costs associated with adoption of the amendments to the existing RCSA Section 22a-174-31. Additionally, the state may realize operational savings through the continued contribution of proceeds from this program to advance energy efficient programs and to support use of clean energy sources.

The Department of Energy and Environmental Protection (Department) will implement the proposal with no change in existing staff and other resources. Currently administration of the program requires the equivalent of two FTE positions.

Explanation of Municipal Impact: No impact on municipalities is anticipated. See the explanation above concerning the state impact.
