

The Resilient 21st Century Business

How Managing Chemicals
Can Help Your Business Weather the Storm

**Free online training for
businesses:**

Coming Soon - available March 2020

The online training will be useful for a variety of businesses that use or sell chemicals and store hazardous waste onsite. It will provide information on how to mitigate the impacts of a natural hazard, save money, and prevent risks to human health and the environment from toxic chemicals. The online training will cover the importance of reducing chemicals, switching to less toxic ones, and using BMPs to be more resilient as well as provide tools and resources to assess if your facility is at risk during a storm.
