

Recycling Processing Facilities/Materials Recovery Facilities (MRFs)

The following CT permitted SW facilities reported receiving bottles and/or cans and/or paper (BCP) for recycling processing or for transfer to a recycling processing facility in FY2018. The recyclables may have been received as single stream (mix of bottles, cans, and paper); paper mix; individual paper grades; dual stream (bottles and cans separately from paper); aluminum or steel cans; glass bottles; etc.

Data is based on data as entered in the CT DEEP SW Database as of 12/10/2018 and accuracy is contingent upon the accuracy of quarterly reports submitted to DEEP by the reporting SW facilities.

Reporting Facility	Facility Location	State	Types of BCP Reported Received for Recycling FY2018
