US operations - customer offer

- Environmental friendly recycling of new construction waste (only), FOR NOW.
- Cheaper than landfill disposal
- We can collect from the customers or they can bring to the warehouses
- Customers include:
 - General contractors, construction companies, pre-fab housing manufacturers and drywall hangers
 - Transfer stations, recyclers/processors, waste haulers, waste management companies, landfills and municipalities
 - We have customers in all New England states !

Hauling Options

- GRA has partnered with many rolloff & large trailer companies across MA and beyond.
- **WHAT WE OFFER:**
 - 15 & 30 cubic yard slide top containers for your jobsites
 - Open top available in 15,30 & 40 (you must keep the material dry)
 - Open top live load capabilities across MA
 - Drop off locations in 15 areas
 - 100 cubic yard live load service across MA, CT, NH, RI
 - Haulers: Place our containers on your jobsite to help spell out Gypsum Recycling & don't tie up your own.
 - Recycling backup - Our loads average 95% + recycling rates, all necessary paperwork is distributed.
- **WE ACCEPT:** All gypsum based interior and exterior boards including fire rated / fiberglass and mold resistant materials. In addition, gypsum ceiling tiles.

GRA is here to stay

- Renewed long term lease in Cambridge
- Exploring 2nd MA storage / processing facility and mobile processing in CT, NH, VT, NY and NJ.
- Contracts with end markets of gypsum powder from both new construction and renovation that exceed entire market expectation
- Continued improvements / investments in Cambridge
- Researching equipment needed to load bulk trailers
- Continually adding containers to our fleet
- Strong support by Mass DEP, EPA and local stakeholders

Thank you for your attention
