FUN AND GAMES

HOROSCOPE

ARIES (March 21-April 19). You need a break. Things that wouldn't usually appeal to you now seem extremely interesting. For instance, you are entertained by the thought of just sitting in front of the television for a few hours and watching a movie.

TAURUS (April 20-May 20). When you know what you want and go for it, you will inevitably wind up facing a task that scares you. This challenge is part of the reason you chose the goal in the first place. You have what it takes. Keep going.

GEMINI (May 21-June 21). You'll be helping a loved one complete a certain mission. Emotional support and comfort are nice. But sometimes a kick in the right direction is what's needed.

CANCER (June 22-July 23). You'll be dealing in a game where the rules are unlike any you've encountered before. In fact, they seem quite arbitrary and irrational. Before you make your move, attempt to better understand the system.

LEO (July 23-Aug. 23). Simple kindness is a great achievement, especially when it is an anonymous act and one is certain there will be no reward. There are plenty of rules and bluffs of industry who are incapable of this.

SCORPIO (Oct. 24-Nov. 21). There is much misinformation out there today. Check and double-check your sources. Take your time in discerning which news are worth taking and which are dumb.

SAGITTARIUS (Nov. 22-Dec. 21). Push yourself to attack a bigger goal than you've been willing to pursue until now. Unless you do it, you won't know whether or not you can. That is a painful prospect. Adopt this policy: no regrets.

CAPRICORN (Dec. 22-Jan. 19). Just when you think you have a handle on where things are going in a relationship, the other person is likely to throw you for a loop. Losing sight of the situation will cause you to gain valuable insight.

AQUARIUS (Jan. 20-Feb. 18). A new social situation is part of the day's recipe. You won't regret going carefully into the mix. Refresh your concepts. Listen. And when it's your turn, talk about the things of which you know best.

PISCES (Feb. 19-March 20). If the opportunity that's presented to you is not exciting enough, create your own. Ideally, it will be something in line with your long-term picture. Where do you want to be in five years?
