

STATE OF CONNECTICUT
DEPT. OF EMERGENCY SERVICES & PUBLIC PROTECTION
DIVISION OF EMERGENCY MANAGEMENT & HOMELAND SECURITY

TO: Municipal Chief Executive Officers, Service Chiefs, and Emergency Management Directors

FROM: William P. Shea, Deputy Commissioner

DATE: July 6, 2012

RE: Statewide Hurricane Exercise Update # 6 - ESF 12 Energy Annex Template for Local Emergency Operations Plans

This memorandum is the sixth in a series of memorandums and messages containing information and tools to help you prepare for the upcoming Statewide Hurricane Exercise as well as for the next inevitable emergency.

Attached you will find an Emergency Support Function (ESF) 12 Energy Annex Template for use with your Local Emergency Operations Plan (LEOP). This template is the product of the Energy and Utilities Working Group and is intended to assist municipalities in planning for power and communications outages. It is based on a number of municipal ESF 12 plans from across the country. Please use this template to help you prepare for the Statewide Hurricane Exercise and to enhance your LEOP.

This memorandum and attachment will also be posted on the DESPP/DEMHS website at <http://www.ct.gov/demhs>.

If you have any questions or if you require any additional information regarding the Statewide Hurricane Exercise, please contact us at DEMHS via e-mail at demhs.eppi.questions@ct.gov.

Sincerely,

A handwritten signature in black ink that reads "William P. Shea".

William P. Shea
Deputy Commissioner
Department of Emergency Services & Public Protection
Division of Emergency Management & Homeland Security
