1. County listed is county of residence at first report of hepatitis $C$.
2. Corrections or facility indicates residence at time of report.
3. Hepatitis C, past or present=a case that is laboratory confirmed and does not meet the case definition for acute hepatitis $C$.
4. 2007-2015: Laboratory confirmed=anti-HCV positive with a signal to cut-off ratio predictive of a true positive as determined for the particular assay or verified by a more specific test (PCR, genotype).
5. 2016-2017: Laboratory confirmed= detectable RNA.
