

2012 QUARTERLY PROVIDER ACTIVITY REPORT

INSTRUCTIONS PAGE

EXPLANATORY NOTE: Implementation of the Connecticut Emergency Medical Services Tracking and Reporting System (CEMSTARS) project is ongoing. Until the statewide data system implementation is complete, this data, as reported by each licensed or certified ambulance service, may not be an accurate representation of actual service responses or response times in a specific community. OEMS & the statewide data committee are working on data validation to assure that the aggregated data is as accurate as possible. This report represents a compilation of EMS responses aggregated by town. Data representing an EMS services' 911 emergency responses to a particular town or city should be verified by contacting the local communities' EMS chief of service for specific and detailed response time performance data.
