Re: Quarterly EMS Data submission

Public Act 15-223, passed during the 2015 legislative session, added a timeframe requirement to CGS§19a-177(8) regarding EMS data collection. Submission of EMS data shall be submitted on a quarterly basis, from each licensed ambulance service, certified ambulance service or paramedic intercept service that provides emergency medical services.

OEMS is missing EMS data from a number of EMS organizations for the third quarter (July-September). Additionally, OEMS is missing data from a few services for much or all of 2016. Please take the time to check to be sure you are current with your EMS data records submissions. If you are not current (Jan-Sept 2016), please take the time to upload any missing records as soon as possible.

If you have questions regarding EMS data submission, contact your software vendor.
