Re: Update to Connecticut Statewide EMS Protocols - v2017.2

Please be aware that an update to the Connecticut Statewide EMS Protocols has been published and can be found on the [Statewide EMS Protocols page](#) of the OEMS website. We have also created a companion summary document of the revision changes, which you will also find on there.

This update represents the ongoing work across the spectrum of medical oversight from the EMS sponsor hospitals, the regional Medical Advisory Committees, the Connecticut EMS Medical Advisory Committee, and the Department of Public Health.

As with the first version, implementation for each EMS organization is under the director of the EMS sponsor hospital.
