Project Name:	Implementing Suicide Prevention Strategies in CT Communities: Building Capacity in Loca

Project Description (max. 130 words):

*Please include desired outcome or product in your description.

The selected intern can assist in providing support to statewide injury prevention initiatives that would address systems and environmental change to prevent injuries and disabilities to Connecticut residents. The addition will provide the flexibility to address injury related issues in a timely manner. An intern will provide a much needed staff that will work collaboratively with DMHAS, DCF and CT Suicide Advisory Board to provide support and Technical Assistance to LHDs in implementing suicide prevention strategies. In addition, s/he will be instrumental in stakeholder presentations, collection and dissemination of best practices in the state.

The intern will benefit immensely from a hands-on approach and will be in constant communication with both the principal investigator and the project manager for the NVDRS project in CT. In an environment where excellence is expected, the intern will have the opportunity to put into practice his/her skills.

Semester:	■ Fall	■ Spring	□ Summer
Project Start Date:	September		
Project End Date:	Ongoing		
Paid:	□ Yes		■ No
If yes, please provide stipend amount:
