Guidelines for Use

Participant Information and Health Data and Nutrition Risk sections:

- Participant and/or Family ID #: To be completed by WIC Program staff.
- All other **participant information** fields to be completed by WIC staff- most likely a Program Assistant or health care provider's (HCP) office staff- including Participant Name, Date of Birth, Sex, Parent's/Guardian's Name, Address, Phone # and Health Insurance Plan.

Participant Health Data fields to be completed by the HCP and/or the WIC Nutrition staff i.e. Competent Professional Authority (CPA). For infants and children: weight, length/height, BMI, hematological data, immunizations and medications/medical conditions. Note: Weight, length/height measurements must be within 60 days of WIC certification appointment.

Hemoglobin or hematocrit results must be within the following timeframes for infant and child participants. Timing of bloodwork is dependent on the initial infant blood test: 9-12 months, 15-18 months, 2 years, 3 years and 4 years. If results are abnormal, a repeat test is required within 6 months as indicated by Federal WIC Regulations, which follow the CDC's [*Recommendations to Prevent and Control Iron Deficiency in the United States*](#). MMWR 1998; 47 (No. RR-3) p. 5. HCP or WIC CPA to check all applicable nutrition risk factors including anthropometric, biochemical, clinical/health/medical/ dietary or other based on medical examination or complete nutrition assessment. Specify condition when indicated. Note: If the WIC CPA has questions or concerns regarding data entered by the HCP he/she should follow up as appropriate for clarification.

Health Care Provider Signature and Title is required. The HCP must complete the date and address (location) of practice, clinic or office. By signing this form the HCP verifies he/she has seen and evaluated the patient. In cases where this form is being completed at a time other than certification, e.g. for coordination of health care purposes, a signature is also required for that health care provider as verification.

Shaded Gray area: To be completed by WIC CPA. WIC CPA Signature and WIC Certification date is required to certify the information on the Medical Referral Form has been reviewed and verified. HCP checked Nutrition Risk Criteria should be entered into CT-WIC in the relevant Screens. If the form is being used for a mid-certification, check the appropriate box.

- **If the participant doesn't present with a HCP Completed Medical Referral Form, the WIC CPA doesn't need to complete a paper certification form to process a certification appointment.** Use the Guided Script in CT-WIC to complete the WIC certification process, assess and document risks. Although not required for certification, it is best practice to provide a WIC Certification/Medical Referral Form to participants, Authorized Persons (AP) and/or caretakers to have their HCP complete, to either verify medical conditions or to ensure continuity of care.

Applicant/Participant Authorization Section:

This section must be completed by all applicants and participants, even if the front of the form is filled out prior to the participant visiting the WIC local agency. If applicant or participant declines to allow share anthropometric information with WIC from the health care provider or organization listed, check the box marked, declined. WIC staff must take anthropometric measurements in the WIC office. See WIC 200-13 for more details on this section.
