

Term Infant Formulas (Whole, Intact Protein)

Standard Formula (20 Cal/fl oz)

These formulas are not hypoallergenic and are **not** indicated for infants with known or suspected cow's milk allergy

Product Name	Description	Indications for Use
Similac Advance	Nutritionally complete infant formula with iron Cow's Milk Based 20 Cal/fl oz	Most healthy infants for use as a supplement or alternative to breastfeeding.
Similac Soy Isomil	Nutritionally complete infant formula with iron Soy based* Lactose free 20 Cal/fl oz	For infants with feeding problems such as fussiness and gas Vegetarian families For disorder in which lactose should be avoided, lactase deficiency, lactose intolerance, and galactosemia For use as a supplement or alternative to breastfeeding

*25-50% of infants with cow's milk allergy are prone to develop a soy allergy. Certain high-risk infants should be put on a hypoallergenic formula only (rather than a soy based formula) if they have a cow's milk allergy-the physician will decide this based on the specific infant's medical history.
