

The Connecticut Chief State's Attorney's Office, in partnership with the Connecticut Department of Correction and law enforcement agencies statewide, have created the Third Edition Cold Case Playing Card Deck highlighting 52 unsolved homicides and missing persons cases that have occurred throughout the state. These cards are being distributed in an effort to generate information and leads in solving these cold cases. Every tip has the potential to bring law enforcement one step closer to obtaining justice for victims and a sense of closure for their surviving family members.
