# Public Comments

*(2 Minutes per Commenter)*

# Approval of Minutes

*March 16, 2018 Data Release Committee Meeting*

# Data Request Application Review & Discussion

# Project Summary

<b>Principal Investigator's Name and Title:</b>	Evan Young Head of Data Analytics & Finance
<b>Organization Name:</b>	My Medical Shopper
<b>Description and Purpose of Project:</b>	Augment the coverage of our MyMedicalShopper price transparency platform to include the entire state of Connecticut. Enable CT medical consumers to make more optimal consumption decisions on the merits of cost, quality, and convenience.
<b>Disposition of Application:</b>	

# Executive Session

Pursuant to CGS § 1-200(6)(C): Matters Concerning  
Security Strategy or the Deployment of Security  
Personnel, or Devices Affecting Public Security

# Data Request Application Review & Discussion

# Project Summary

<b>Principal Investigator's Name and Title:</b>	Linda Niccolai, PhD Associate Professor
<b>Organization Name:</b>	Yale University
<b>Description and Purpose of Project:</b>	The objective of this study is to examine trends in annual prevalence of genital wart diagnoses in the Connecticut Insured population for males and females separately during 2012–2017.
<b>Disposition of Application:</b>	

# Executive Session

Pursuant to CGS § 1-200(6)(C): Matters Concerning  
Security Strategy or the Deployment of Security  
Personnel, or Devices Affecting Public Security

# Data Request Application Review & Discussion

# Project Summary

<b>Principal Investigator's Name and Title:</b>	Linda Niccolai, PhD Associate Professor
<b>Organization Name:</b>	Yale University
<b>Description and Purpose of Project:</b>	<p>The objective of this study is to estimate cervical screening rates for women in Connecticut. This task is part of a larger objective of measuring the impact of HPV vaccine on population health. The program is contracted through the Connecticut Department of Public Health to conduct surveillance of high-grade cervical lesions (HGCLs). However, interpretation of this data is limited because diagnoses of HGCLs are affected by changes in guidelines that recommend longer intervals between cervical cancer screenings which have been implemented since vaccine introduction. The team proposing to obtain claims data to generate estimates of cervical cancer screening in Connecticut and New Haven County.</p>
<b>Disposition of Application:</b>	

# Executive Session

Pursuant to CGS § 1-200(6)(C): Matters Concerning  
Security Strategy or the Deployment of Security  
Personnel, or Devices Affecting Public Security

# Committee Vote Data Release Application
