## Devore S. Culver

---

Dev Culver is the Executive Director and Chief Executive Officer of HealthInfoNet which operates Maine's statewide health information exchange (HIE). HealthInfoNet recently entered its ninth-year of operation. All hospitals in Maine are under contract with HealthInfoNet and will be bi-directionally connected to the exchange by the end of 2016. Over 450 physician practice sites, Federally Qualified Health Centers (FQHC), skilled nursing facilities, and behavioral health organizations are also currently connected to the exchange.

Prior to HealthInfoNet, Dev served for 16 years as the CIO for Eastern Maine Healthcare Systems located in Brewer, Maine. In 2004, Dev joined Eclipsys Corporation (now merged with Allscripts) and then later Cerner Corporation in senior management positions responsible for the installation of advanced clinical information systems and the delivery of consulting services to healthcare clients in a multi-state region. At the national level, Dev has served on the CCHIT task force on health information exchange networks, and the AHIMA State Level Health Information Exchange Steering Committee. Dev received the NEHIMSS Advocacy Leadership Award in 2009 and in 2011 he and HealthInfoNet were the recipient of the Healthcare Informatics Innovator Award. Dev graduated from Brown University and holds a Masters in Management from Northwestern University.
