DATA ●●●
COLLABORATIVE

~ Changing the Way Connecticut Uses Data ~

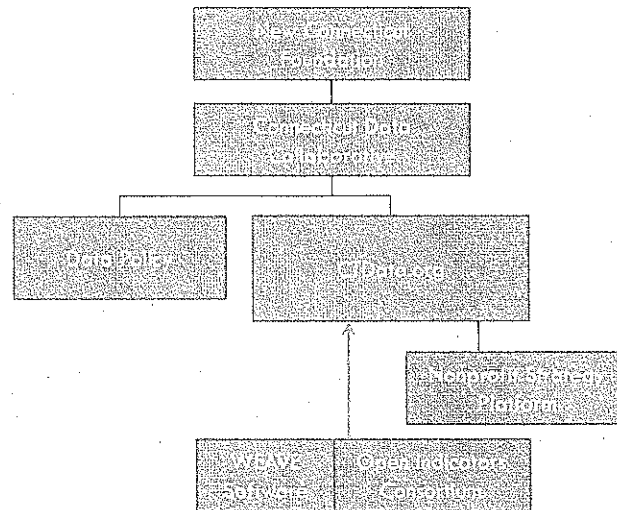

Presentation to the Governor's
Cabinet on Nonprofit Health and Human Services
May 24, 2013

Mission

The Connecticut Data Collaborative is a public-private partnership (and program of the New Connecticut Foundation) working to increase the quality and accessibility of up-to-date, relevant data needed to inform effective planning and policy.

Goal: *To advance the use of data and information for public policy, strategic planning, program and service improvement, and public accountability purposes at the state, regional, and local community levels.*

Structure

Steering Committee

- Robert H. Aseltine, Jr., Ph.D., University of Connecticut Health Center
- Merle Berke-Schlessel, Esq., United Way of Coastal Fairfield County
- Priscilla F. (Penny) Canny, PhD, The Community Foundation for Greater New Haven
- William Cibes, retired
- James Farnam, Farnam Associates, LLC
- Kimberley Fontaine, Connecticut Health & Educational Facilities Authority
- David Garvey, Ph.D., University of Connecticut
- Elliot Ginsberg, Connecticut Center for Advanced Technology
- Janice M. Gruendel, Ph.D., M.Ed., Department of Children and Families
- Denise Merrill, Connecticut Secretary of the State
- David M. Nee, William Caspar Graustein Memorial Fund
- Richard Porth, United Way of Connecticut
- Bennett Pudlin, The Charter Oak Group, LLC
- Robert W. Santy, Connecticut Economic Resource Center, Inc.

Membership in the Open Indicators Consortium

Arizona (State University of Arizona, Innovation and County Indicators)
 Metro Atlanta/Atlanta GA (◆ Neighborhood Nexus Partnership)
 Metro Boston/Boston(★ ◆ Metropolitan Area Planning Council and the Boston Indicators Project at the Boston Foundation)
 Metro Chicago/Chicago IL (★ ◆ Chicago Metropolitan Agency for Planning)
 Columbus/Central OH (◆ Community Research Partners, MORPC)
 Connecticut (CERC & CT Data Collaborative (with★◆ New Haven★◆ Hartford))
 Kansas City (★ MARC and ◆ Collaborative) (in process)
 MA Dept of Early Education and Care
 Michigan Data Collaborative (◆ Grand Rapids / ◆ Detroit) (in process)
 Rhode Island (Rhode Island Dept of Education and ◆ the Providence Plan)
 Rockford Region Vital Signs★
 Seattle/King County Public Health Department ◆
 So. Florida Planning Council (including Miami) ★ ◆
 Center for Houston's Future
 U.S. Centers for Disease Control and Prevention(CDC)
 Institute of Portland (OR) Metropolitan Studies
 San Antonio Community Information Now - NNIP Partner◆

◆NNIP Partners (13)

★HUD Sustainable Communities Grantee (7)

Funding

- Start-up support for membership in Open Indicators Consortium from CT Early Childhood Cabinet and William C. Graustein Memorial Fund
- Three-year grant from CT Health and Educational Facilities Authority for approx. \$1 million
- Individual portal support
- *Long-term: pursuing additional support to sustain programs*
 - State Budget (pending), State agencies, Philanthropy, Regional Collaboratives

Initiatives

- CTData.org
 - Houses wide range of data from federal, state, local and private sources relating to health, well-being and economy of Connecticut
 - Provides potential “enterprise solution” across agencies to provide public access to state data.
- CT Nonprofit Strategy Platform
 - Provides access to federal, state and nonprofit agency trend data
 - Designed in partnership with Urban Institute’s National Center for Charitable Statistics and United Way of CT / 211. Led by UCONN Nonprofit Leadership Program
- Data Acquisition and Policy

Other Data Initiatives in CT

- CT State Data Center
- CT Health Information Network (CHIN)
- Sectoral Efforts
 - Early Childhood Information System
 - All Payor Claims Database
 - P20-WIN
 - Health Information Exchange
- DSS Integrated Eligibility System (Tiers 1-4) Initiative
- Many Agency and Program-based Efforts

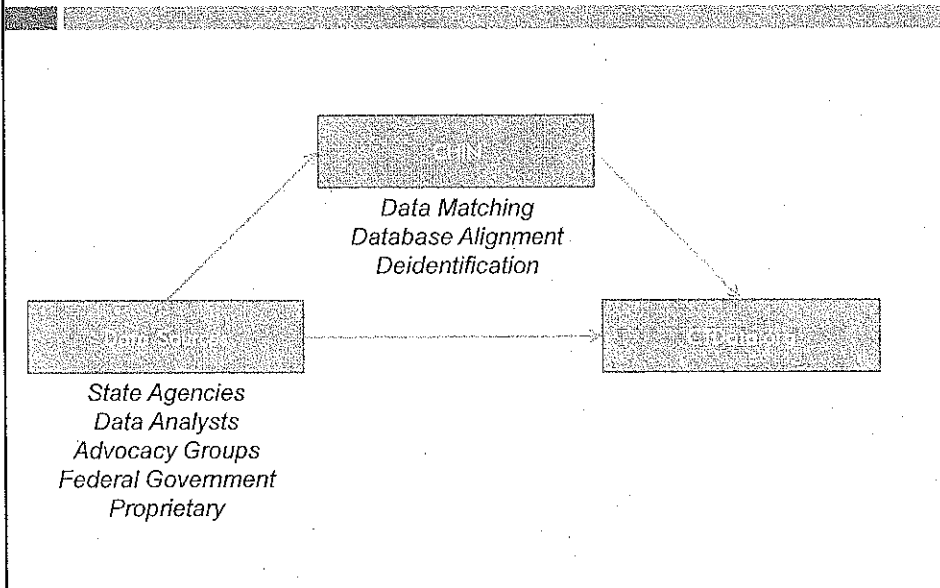

Issue Analysis

- Lack of a coherent overall data plan
- Need for better tools to
 - Support RBA
 - Better measure program goals
 - Support public analysis of important state policy issues
- Need for a State Open Government Initiative or Open Data Strategy modeled on the Obama Administration's efforts
- Redundancy in agencies developing or planning diverse public access query systems to disseminate data with no common approach or standard

Data Security

- Partnering with Connecticut Health Information Network (CHIN) to develop indicators
 - Established in statute PA 07-02
- No individual, identifiable information will be available on CTData.org

Data Security (cont.)

Connecticut Health Information Network

The Connecticut Health Information Network

Rob Aeltine, PhD

UConn
HEALTH CENTER

The graphic features a thick black cable with a connector at the bottom left. A white box containing the text "Connecticut Health Information Network" is positioned at the top right, with a line extending from it towards the cable. Below this, a horizontal white box contains the text "The Connecticut Health Information Network". To the right of this box is the name "Rob Aeltine, PhD". At the bottom center is the "UConn HEALTH CENTER" logo.

DPH
Department of Public Health

Two Examples

- **CT Medicaid spending \$5.7 Billion FY 2010**
 - Major preventable medical expense = hospital readmissions
 - Medicaid: 2 – 3x rate of 30 day readmissions
 - Why? Patient characteristics, hospital performance, community systems of care? Need to connect APCD, HITE CT, Vital Statistics
- **Early childhood programs cost over \$500 million per biennium**
 - No idea what impact they have on child development.
 - Need to connect DSS – DDS – DCF – DPH – OCA

Connecticut's Opportunities

- **CT has multimillion (billion ?) dollar challenges in health and human services**
- **Data to address these challenges exist**
- **CHIN technology is a game changer**

CTData.org Target Audiences

- State agency leaders & staff
- Legislators (results-based accountability)
- Regional/local agency staff (public/private)
- Advocates and partners
- Media
- Communities
 - Municipal leaders
 - Local & multi-town health districts
 - Early childhood planning groups
 - Philanthropy
 - Libraries, CT Library Council

Results We Seek

- Create CTData.org as an “Enterprise Solution” for public access to state agency, federal, and other data
 - ▣ In partnership with CT State Data Center and others
 - ▣ Access to a wide array of accurate, timely, policy-relevant data
 - inform planning, policy development, and program evaluation
 - across local, regional, and state levels.
- Creation of a learning community of data users and producers
- Efficiency in data development
 - ▣ documentation
 - ▣ connection of all efforts in state.
- Connecticut Open Data Policy and Practice

Accomplishments

- ❑ Established 501(c)(3) foundation to oversee initiatives
- ❑ Developing CTData.org, Nonprofit Strategy Platform and six portals to make public data available on one website
- ❑ Working with multiple state agencies for data access
 - ❑ Early Childhood Portal - across agencies
 - ❑ DMHAS - Behavioral Health and Prevention Portal
 - ❑ Secretary of The State- Business Registration Portal
 - ❑ Exploring Water Quality Portal with DEEP / Foundation
- ❑ Producing visualizations of public data
- ❑ Creating data standards; promoting and modeling adoption in production and use of data

CT Nonprofit Strategy Platform

- ❑ State of Connecticut Contracts \$1.5 billion in Social Services with 1,400 Nonprofits

CONNECTICUT NONPROFIT STRATEGY PLATFORM

The screenshot shows a web application with a search bar, navigation tabs, and a list of results. At the bottom, there is a logo for the National Center for Charitable Statistics (NCCS).

Assets Mapping Assets and Needs

Communication Community Impact Circles

Financials Financial Analysis of 990s

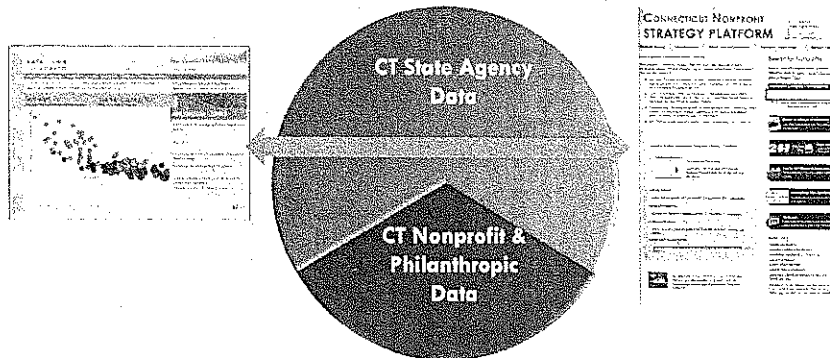

Education Results Based Accountability

CT Nonprofit Strategy Platform

- State of Connecticut Contracts about \$1.4 billion in Social Services with 900 Nonprofits
- Interconnection between State data and Nonprofit Agency Data for Public Policy Decision Making

CTData.org Data Portals

Topical

- Early Childhood (Graustein Memorial Fund/Discovery)
- DMHAS Behavioral Health Prevention
- CT Commission on Health Equity
- Rural Health (CT Office of Rural Health)
- Municipal Fiscal Indicators
- SOTS Business Registration and Voting (in development)

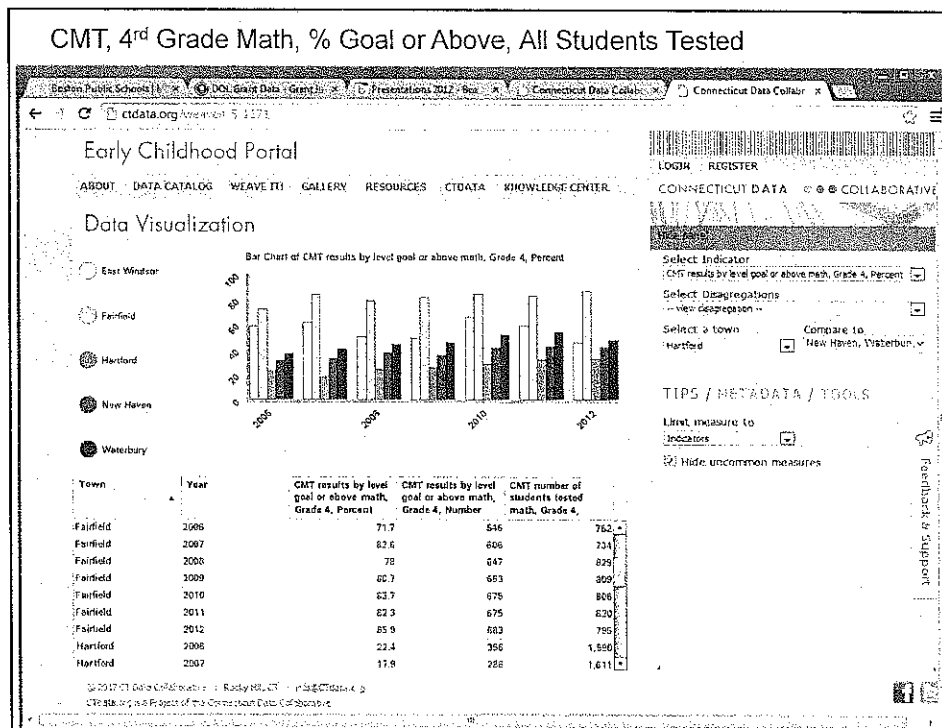

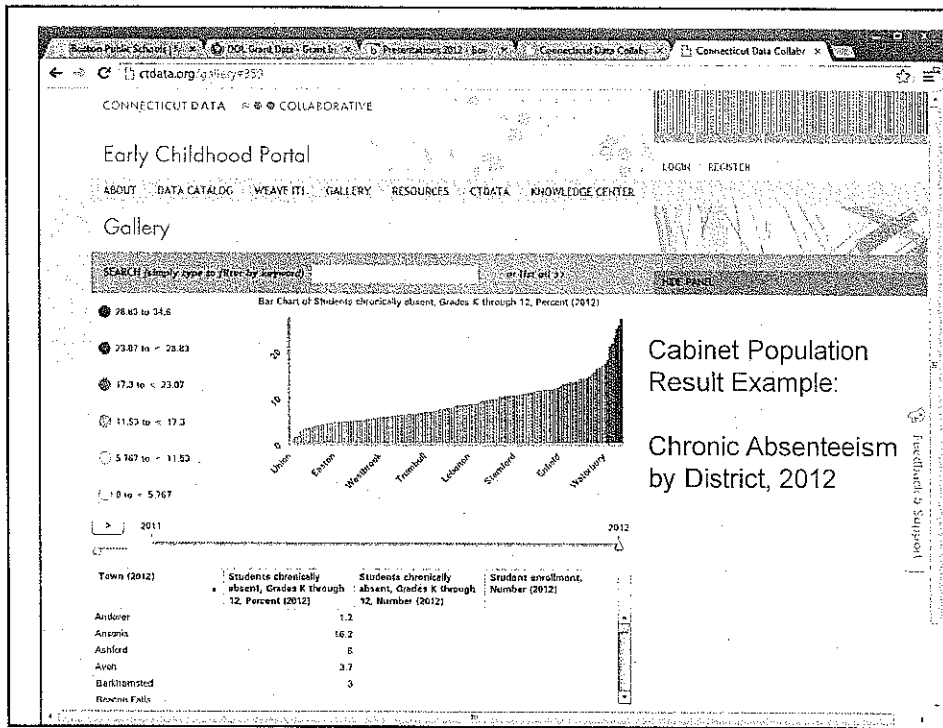

Geographic

- Coastal Fairfield County Community
- South Central CT (DataHaven)

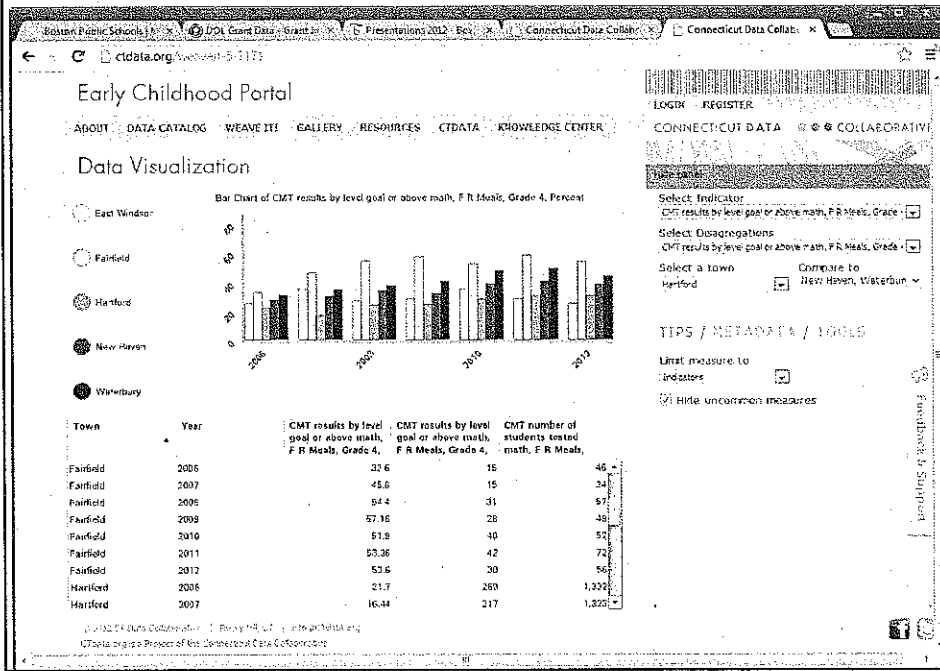

The screenshot shows the 'Data Catalog' page on the Connecticut Data Collaborative website. The page features a navigation menu with links for 'ABOUT', 'DATA CATALOG', 'WEAVE IT!', 'GALLERY', 'RESOURCES', 'CTDATA', and 'KNOWLEDGE CENTER'. The main content area is titled 'Data Catalog' and includes a 'FILTER BY INDICATORS' section on the left. This section allows users to search by terms, years available, and subject area. A list of indicators is displayed on the right, including 'Civic Vitality', 'Demographics', 'Economy', 'Poverty', and 'Education'. A large text overlay on the right side of the page reads 'Data Catalog Easy Access and Search Filters'.

The screenshot shows the 'Early Childhood Portal' page on the Connecticut Data Collaborative website. The page features a navigation menu with links for 'ABOUT', 'DATA CATALOG', 'WEAVE IT!', 'GALLERY', 'RESOURCES', 'CTDATA', and 'KNOWLEDGE CENTER'. The main content area is titled 'Early Childhood Portal' and includes a 'Choose your Visualization' section. This section offers three visualization options: 'BAR CHART WITH ALL CT TOWNS OVER TIME', 'MAP WITH ALL CONNECTICUT TOWNS OVER TIME', and 'COMPARE TOWNS BAR CHART OVER TIME'. A 'DATA TABLE OVER TIME' is also shown, displaying data for 'Town (2008)' and 'Prenatal nonadq'. A large text overlay on the right side of the page reads 'Pre-Set Visualizations For Beginners'.

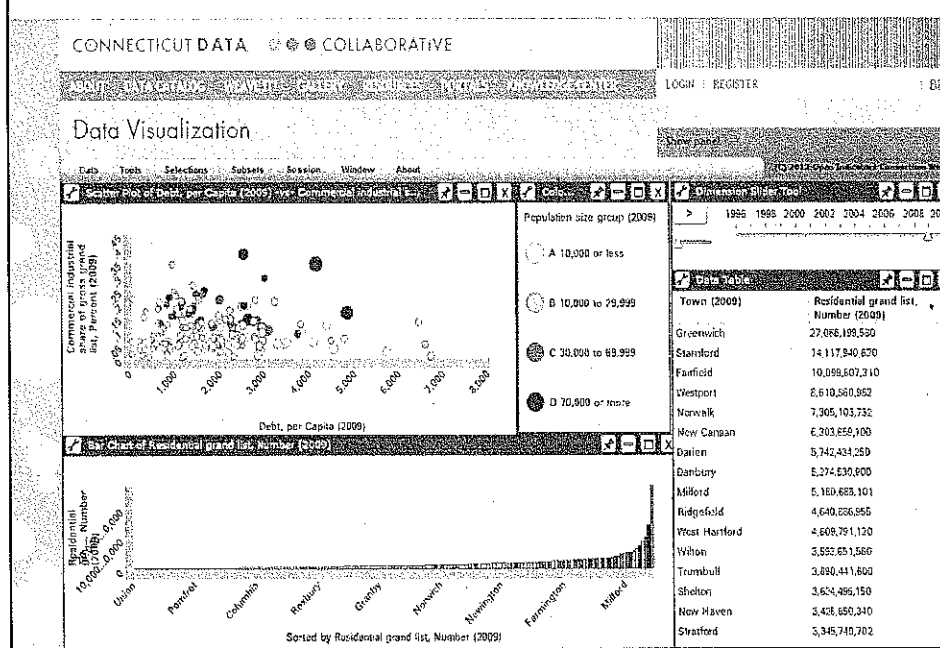

Town (2008)	Prenatal nonadq
Ellington	15.8
Oxford	6.9
Stamford	18.5
Westport	15.8

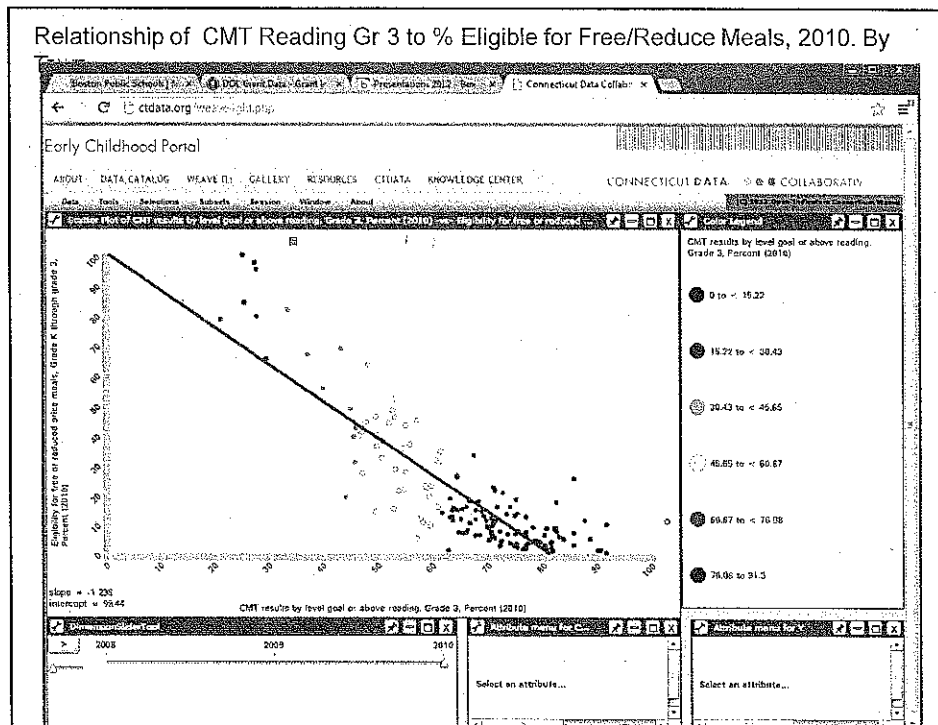

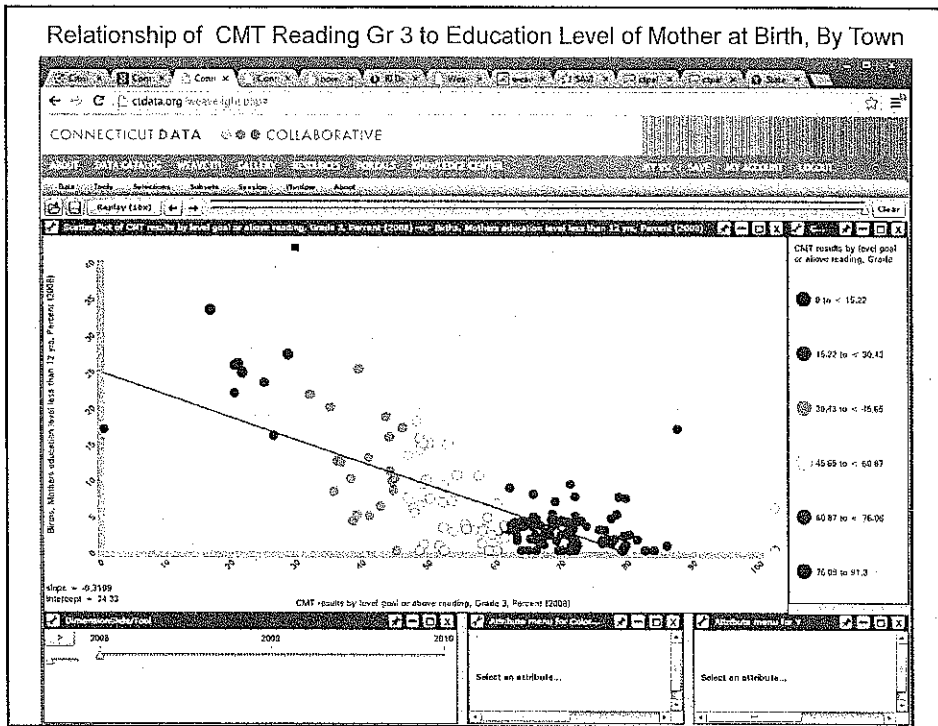

CMT, 4th Grade Math, % Goal or Above, Students w/ Free and Reduced Meals

Relationship of CMT Results to % Eligible for Free/Reduce Meals, 2010. By Town

Relationship of CMT Reading Gr 3, to % Eligible for Free/Reduce Meals, 2010. By

Metrics

- Data available
 - CTDData.org – approx. 1,900 indicators
 - Nonprofit Platform – data on 21,000 nonprofits
- Engaged Users
 - 340 registered users
 - Average of 600 unique users per month (CTDData.org)
 - Attendance at Conferences (2 – 250) / Webinars (125)
- Partnerships
 - State Agencies engaged (varying levels): 15
 - Funders engaged: Nine funders

Short Term Goals

- Expand data available on CTData.org/Nonprofit Platform
 - Negotiation of Data access agreements with State agencies
 - Document, update and expand data currently available
- Pursue Indicator/Report Card Initiatives
 - Population Results Workgroup – NP HHS Cabinet
 - Connecticut Children's Report Card
- Continue to Refine Web Site based on feedback, partner needs, Weave improvements
- Engage More Users
 - CT Data Conferences / Training with webinars
 - New User friendly tools

Long Term Goals

- Add value to public data through single point of entry and visualization
- Help state agencies analyze and measure program effectiveness
- Help state agencies meet public data distribution goals
- Adoption of open government and open data policies by the state
- Incorporate into results-based accountability process
- Sustainability

What are our next steps with the
Cabinet?

- Move ahead with Population Results Workgroup
 - Co-design effective access and display
 - Tap CHIN Capacity for Indicator Development
- Accelerate discussions on Data Access
- Agree on critical data sets to test interoperability and population level results
