INFORMATION ITEMS:

1. Executive Director's Report
Chief Flaherty, Police Academy Administrator reported his activity to the Council since the last Council meeting. There are two (2) classes in residence all the time. Chief Mello and I met for discussions in regards to Cooper Standards and other than one slight

modification (which is included in your general notices) we have a better understanding of where we are on that. The recruit classes participated in Police Memorial Service back in May. General notices distributed and in council's packages. Hosted 20 English University students at the request of Chief Dooley from Southern CT State University, they toured the academy; criminal justice students doing studies in comparative Criminal Justice. Accompanied Steve Sarnoski to Superior Court in New Britain, stood by on the Bryant Litigation Case – still pending. Attended Wellness Committee meetings. We submitted documents through the Commissioner's office for funding for Academy Security Systems which was a long time concern. Hosted law enforcement round table here for police chiefs and Senator Blumenthal a few weeks ago; preparing testimony for CHRO fact-finding hearing on POST Selection Standards/Cooper Standards for another state agency, not a challenge we have. The 353rd session graduates this evening at CCSU at 6pm. Commissioner had several meetings on budget issues including new 10% budget reduction option for FY2018.

Commissioner Dora Schriro – All executive agencies were directed to look for additional 10% for next bi-annual budget, FY18/19, does not rule out FY17. Our agency is mainly General Fund funded with some Federal monies and we receive quite a bit of “pass through money”. A few months back we looked at a possible tuition increase which may require us to come back to the council at some point. We are looking at alternatives to cuts. Policy philosophy, our six (6) divisions have quite a bit in common, similar training, established a Dispatcher Academy, training for COLLECT. “There's only so much you can keep shaving off of stuff before you can say that one function or another has to be prioritized as something less than others and it would not be training or certification.” Working with Dr. Vallero – DSS “took on postmortem toxicology testing, benefit to the state, which saved chiefs money because all of that cost was going to get shifted to the departments, and we figured out how to do it with no increase and additional cost to us. We are looking for ways to do things better, smarter, faster cheaper and we'll see how far that takes us.”

Chief Lovello – Given our reduced ranks from our authorized number of 20 council members, we are now at 15. The Governor is proceeding to get us back up to full strength. That prompted my email requesting all of you make every effort to attend every meeting. Had discussions with Steve Sarnoski, regarding if there was any latitude on the quorum requirements of 10. He assured me there is not, 10 members are required to be here for a quorum no matter how many sit on the council at any given time. Asked him about potential for teleconferencing, understanding that we are not equipped here to do that, but for Steve to comment on what provisions are in place for that by state statute.

Steve Sarnoski – Teleconferencing is a viable option for attending meetings; whoever is attending meeting remotely would have to be at a telephone or screen (whichever they prefer or have available) so they could not only be heard by everybody at the meeting, but everybody at the meeting could hear any comments or input from the remote person. That would satisfy state statute for attendance at the meeting. It is viable we may run into technical glitches, but good as an option, more a technological challenge than a legal challenge.

Chief Lovello stated we can explore what options exist for us to get that capability... Commissioner responded that we can work on that. “We have some resources elsewhere

in the department; whether we move it here or on those occasions maybe propose the meeting itself be relocated to another site.” Chief Lovello mentions “one difficulty with moving offsite is that all the staff here would have to go to the meeting might present some challenges”. Both agreed that it is something to work on to have as an option.

2. Directors Reports:

- a. Basic Training – William Schultz, the Director of Basic Training provided a report on the status of the 2 classes (353rd & 354th) currently in session and the incoming 355th Training Session:
 - 353rd Training Session – began April 1st, graduating forty-two (42) recruits tonight at CCSU.
 - 354th Training Session – began July 1st, with fifty (50) recruits; one just withdrew
 - Incoming 355th Training Session set to begin on October 7, 2016 with fifty (50) individuals enrolled to attend.
 - b. In-Service Training – Susan Rainville, the Director of Field Services provided a report on the activities of her division including in-service training classes provided and scheduled.
3. Accreditation Manager’s Report – William Tanner had nothing to add to the material that was in the Council packets regarding accreditation.
 4. Compliance Officer’s Report – also being handled by William Tanner did update the Council regarding the Certification website. Re-worked the certification page/website, grouped everything by topic to make it more usable. In the working stages with Gary Frederick’s promulgating list for individuals certified to administer cooper standards to be accessible on the website in the near future as well.
 5. Audit Reports – nothing addressed
