Supporting All Students in  
Writing and Research

# Connecticut Core Standards for English Language Arts and Literacy

Grades K–5

*Systems of Professional Learning*

**Connecticut Core Standards Systems of Professional Learning**

The material in this guide was developed by Public Consulting Group in collaboration with staff from the Connecticut State Department of Education and the RESC Alliance. The development team would like to specifically thank Ellen Cohn, Charlene Tate Nichols, and Jennifer Webb from the Connecticut State Department of Education; Leslie Abbatiello from ACES; and Robb Geier, Elizabeth O’Toole, and Cheryl Liebling from Public Consulting Group.

The Systems of Professional Learning project includes a series of professional learning experiences for Connecticut Core Standards District Coaches in English Language Arts, Mathematics, Humanities, Science, Technology, Engineering, Mathematics (STEM), and Student/Educator Support Staff (SESS).

Participants will have continued support for the implementation of the new standards through virtual networking opportunities and online resources to support the training of educators throughout the state of Connecticut.

Instrumental in the design and development of the Systems of Professional Learning materials from PCG were: Sharon DeCarlo, Debra Berlin, Jennifer McGregor, Judy Buck, Michelle Wade, Nora Kelley, Diane Stump, and Melissa Pierce.

Published 2014. Available online at <http://ctcorestandards.org/>

## Module Overview

In Module 3, Connecticut Core Standards Coaches deepen their understanding of instructional practices that align with the Connecticut Core Standards for English Language Arts & Literacy (CCS-ELA & Literacy) and the three instructional shifts.

This module is focused on the CCS ELA & Literacy Writing Standards, which include expectations for types of writing, the writing process, research, and routine writing. Coaches will review the types of writing included in the CCS and will then have an opportunity to examine a vertical progression of student writing introduced in a new resource, “In Common.” Through reading a research-based article, viewing video clips and student work samples, and engaging in several collaborative protocols, participants will dig deeply into the instructional shift, “Writing, grounded in evidence from text.” Participants will review the expectations for research and technology use in the CCS. They will examine CCS-aligned units focused on research to see how the research process is developed. Building on Module 2’s focus on Universal Design for Learning, coaches will consider how support for writing instruction can be developed through a gradual release of responsibility from teacher to students. They will revisit a video lesson from Module 2, and discuss how the teacher’s planned sequence of instruction supported students in writing with confidence. Participants will be introduced to resources that provide a scaffolded framework for writing instruction. Finally, they will discuss the expectations of standard W.10 (routine writing) and will see how it is reflected in several exemplar units. Throughout the module, coaches will participate in several different discussion/presentation protocols which can be used in their work with colleagues and with students.

During the session, coaches will have an opportunity to discuss in small groups the ways in which they shared the messages of Module 2 with colleagues in their schools or districts. At the end of the session, they will reflect on Module 3 and plan for sharing and professional development back in their district or school.

<b>Prerequisite</b>	None
<b>Duration</b>	Full day
<b>Outcomes</b>	<p>By the end of the module, participants will accomplish the following:</p> <ul style="list-style-type: none"> <li>Assess their understanding of writing grounded in evidence, genres of writing, purposes for writing, research, and supporting students in writing relative to the CCS-ELA &amp; Literacy</li> <li>Discuss with colleagues the experience of sharing the activities and messages of the Systems of Professional Learning Modules in their schools and districts</li> <li>Learn how writing and research can be incorporated into ELA &amp; Literacy units and lessons</li> </ul>

- |  |   |
|--|---|
|  | <ul style="list-style-type: none"> <li>• Understand how writing can serve as formative assessment</li> <li>• Become familiar with best practices for supporting all students in writing and research</li> <li>• Collaboratively plan for sharing the key components of this module within their school and/or district</li> </ul> |
|--|---|

### Resources Required

- Chart paper, markers, pens, highlighters, nametags, post-it notes
- Participant Guide for each participant
- *In Common* Student Writing Samples (separate handouts)
- *Best practices in writing instruction* (2nd ed., Ch. 14, pp. 334-350) (separate handout that needs to be collected)
- Template for Activity 8b, “Scaffolding a Writing Task”

### Session Preparation

Tables should be arranged so participants can work in groups.

### Session at-a-Glance

#### Introductory Activities (15 minutes)

- Welcome
- You Are Here
- Module outcomes and session agenda
- Quick write (sharing the materials and messages from Module 2 with school and district colleagues)
- Pre-Assessment

#### Supporting Documents:

- Pre-Assessment
- *Notepad* in Participant Guide

#### PowerPoint Slides:

- 1-7

## Part 1: Sharing Our Successes and Challenges (15 minutes)

Connecticut Core Standards Coaches will meet in small groups and will take turns presenting about how they shared the messages of Module 2 with others in their school or district.

### Activity 1: Sharing About Module 2 (15 minutes)

Coaches will meet in groups of 4 and will share with the others in their group how they shared the messages of Module 2 with others in their school or district.

#### Supporting Documents:

- Quick Write (in the *Notepad*) about sharing messages of Module 2 with school and district colleagues

#### PowerPoint Slides:

- 9-10

## Part 2: A Close Look at the Writing Standards (65 minutes)

After reviewing the organization of the CCS-ELA & Literacy Writing Standards, coaches will read and debrief an excerpt from Common Core State Standards ELA & Literacy *Appendix A*, which includes a definition of the three text types and the special place of argument in the standards. Participants will then be introduced to the extensive collection of student writing in, “In Common: Effective Writing for all Students.” They will examine the differences in grade level expectations of the writing standards for Opinion/Argument, Explanation, and Narrative, by looking at and annotating a progression of On-Demand student writing from the collection.

### Activity 2: Types of Writing in the CCS-ELA & Literacy (30 minutes)

Working in teams of 4, each participant reads about one type of writing from *Appendix A* of the CCSS document (these pages are located in the Appendix of the Participant Guide). Teams discuss, using a Text-rendering Protocol, and synthesize the information by answering questions provided in the participant guide.

#### Supporting Documents:

- Excerpt (pp. 23-25) from CCSSO & NGA. (2010). Common Core State Standards for English Language Arts & Literacy in History/Social Studies, Science, and Technical Subjects. Washington, DC.  
[http://www.corestandards.org/assets/Appendix\\_A.pdf](http://www.corestandards.org/assets/Appendix_A.pdf)
- Directions for Text-rendering Protocol

#### PowerPoint Slides:

- 18-20

**Activity 3: Examining the Grade Level Demands of the Writing Standards (30 minutes)**

Participants examine the differences in grade level expectations of the CCS Writing Standards for Opinion/Argument, Informative/Explanatory, or Narrative writing, by looking at a progression of On-Demand student writing from the *In Common* collection and annotating with the language of the standards.

**Supporting Documents:**

- “Learning by Example – PD Activity” from Achieve the Core. Retrieved from <http://achievethecore.org/page/507/in-common-effective-writing-for-all-students>
- Vertical Progression of the CCS-ELA & Literacy Writing Standards
- Student writing samples from the Collection of All In Common Writing Samples, K-12 (separate handouts) <http://achievethecore.org/page/507/in-common-ee-writing-for-all-students>

**PowerPoint Slides:**

- 21-28

**Part 3: Writing Grounded in Evidence from Text (105 minutes)**

Participants listen to a brief review of Instructional Shift 2, Reading, Writing, and Discussion grounded in evidence from text, and examine the meaning of “writing, grounded in evidence from text.” They see the types of writing that will be required from third grade on in the SBAC assessments. In Activity 4, they participate in a Jigsaw Protocol, using a chapter from *Best Practices in Writing Instruction* (2013). In Activity 5, they watch excerpts from a video of a third grade lesson series and view the resulting student work samples as they discuss how opinion/argument writing can be addressed and supported in the early grades.

**Activity 4: Writing About Text (50 minutes)**

Working in teams, participants use a Jigsaw Protocol to read and debrief Tim Shanahan’s chapter, (2013) “Best Practices in Writing about Text.” Participants, in table groups, read one section of the text, highlighting key ideas (please remind participants not to write on the handout). Together they summarize the section, and decide how they will teach that section to other participants. They create a graphic to help them do so. Each participant makes a copy of the graphic.

Participants re-organize into groups of 5 and each read a different section of the chapter. They take turns “teaching” the other participants about their section.

Participants return to their original table groups, discuss, and record their take-aways for this session in the *Notepad* section of the Participant Guide.

### Supporting Documents:

- Shanahan, T. (2013). Best practices in writing about text. In S. Graham, C. A. MacArthur, & J. Fitzgerald (Eds.), *Best practices in writing instruction* (2nd ed., ch. 14, pp. 334-350). New York: Guilford Press

### PowerPoint Slides:

- 33-42

## Activity 5a: Viewing a Video and Having a Written Conversation (35 minutes)

Coaches watch a video lesson on developing argument writing in a third grade classroom. They have a “Written Conversation,” following directions in the Participant Guide.

### Supporting Documents:

- *Written Conversation*, adapted from Expeditionary Learning. “Written conversation protocol,” from “Teaching Practices and Protocols,” *Grades 3-5 ELA Curriculum: Appendix 1*  
<http://www.engageny.org/resource/grades-3-5-ela-curriculum-appendix-1-teaching-practices-and-protocols>
- Written Conversation Notes Sheet

### Video:

- “Text Evidence to Support an Argument,” <http://commoncore.americaachieves.org/module/17>

### PowerPoint Slides:

- 43-46

## Activity 5b: Looking at Student Work (10 minutes)

Coaches look at the student writing samples generated as a result of the lesson sequence in the video, and discuss the focus question: **What evidence of the instructional sequence do you see in the student writing?**

### Supporting Documents:

- Student work samples from: “Text Evidence to Support an Argument,”  
<http://commoncore.americaachieves.org/module/17>

## Part 4: Research in CCS-ELA & Literacy (60 minutes)

Participants will review the vertical progression of standards related to research. In groups, they will review several CCS exemplar units to see how research is developed. Each group will create a poster to describe their unit. Participants will participate in a hosted gallery walk to view the posters.

**Activity 6: Research in CCS-aligned Units (45 minutes)**

Working in groups of four, participants will review Common Core-aligned research units, modules, or tasks, and will create an illustrated poster, showing the steps in the research process for their unit. They will then participate in a Hosted Gallery Walk so that each participant has an opportunity to see how research is approached in a variety of aligned units.

**Supporting Documents**

Exemplar Units: *Participants will be asked to access electronically during the session*

- Grade 1: Informational Text, Research, and Inquiry Circles: Animals and Habitats  
<http://www.doe.mass.edu/candi/model/files.html>
- Grade 2: Reading and Writing About Whales <http://www.readwritethink.org/classroom-resources/lesson-plans/reading-writing-about-whales-196.html?tab=2#tabs>
- Grade 3: Researching to Build Knowledge and Teach Others: Adaptations and the Wide World of Frogs  
<http://www.engageny.org/sites/default/files/resource/attachments/3m2a.pdf>
- Grade 4 Researching Simple Machines “How Do they Help Do Work?”  
<http://www.engageny.org/resource/grade-3-ela-module-2a>
- Grade 5: Researching to Build Knowledge and Teaching Others: Biodiversity in Rainforests of the Western Hemisphere  
<http://www.engageny.org/resource/grade-5-ela-module-2a>

**PowerPoint Slides:**

- 49-61

**Part 5: Supporting Students in Writing (55 minutes)**

Participants will reflect on what they have learned so far today about the writing standards and shifts and consider what kinds of support students will need in writing. They will review the concept of gradual release of responsibility and will consider the various practices they have seen today that demonstrate a gradual release. In Activity 7, they will return to the video lesson they viewed in Module 2, “Analyzing Text,” and will look at a third segment of the lesson in which students begin to write. They will discuss how the teacher supports all students in being prepared to write.

In Activity 8a, coaches will have the opportunity to dig deeply into a writing framework from the Basal Alignment Project, designed to support students in becoming more proficient writers. In Activity 8b, coaches will practice writing a focusing question and structuring a writing task for the text they have been worked with in Module 2.

They will also be briefly introduced to a second writing framework from the Literacy Design Collaborative that previously existed only for grades 6-12, but has been extended to lower grades. Afterwards, coaches will engage in a brief discussion about the benefits and challenges of using a scaffolded writing framework.

### Activity 7: Viewing a Video (10 minutes)

In Module 2, K–5 coaches viewed several segments of a video lesson in which Stacy Brewer, a fifth grade teacher, skillfully led her students through close reading, note taking, discussing in small groups, and then engaging in an evidence-based discussion as a class. These activities were carefully structured to prepare them to write independently to standards-based questions. Coaches will view the video and then discuss with their tables: ***In what ways did the lesson sequence prepare students to be confident and competent in evidence-based writing?***

#### Supporting Documents:

- Brewer, S. *Analyzing Texts: Putting Thoughts on Paper*. Retrieved from <https://www.teachingchannel.org/videos/analyzing-text-writing>

#### PowerPoint Slides:

- 64-67

### Activity 8a: Examining a Framework (20 minutes)

Coaches learn more about the Basal Alignment Project and are introduced to a framework for scaffolding writing to sources. They read through the framework to become familiar with the steps and they number each of the steps. Then they review an example of a scaffolded writing task written with the framework. They number the steps in the example task with the steps they identified in the framework.

#### Supporting Documents:

- Achieve the Core. Student Achievement Partners. *Writing to Sources: Guided Instruction*. Retrieved from [http://www.solution-tree.com/media/pdf/WriteLikeReportersK\\_5FREYCF335.pdf](http://www.solution-tree.com/media/pdf/WriteLikeReportersK_5FREYCF335.pdf)
- “Writing Task for Lesson on ‘Lou Gehrig’” and “Writing Task for Lesson on ‘San Juan.’” Retrieved from <http://achievethecore.org/page/209/knowning-thinking-and-writing-detail-pg>

#### PowerPoint Slides:

- 68-70

**Activity 8b: Scaffolding a Writing Task (25 minutes)**

Coaches will practice writing a focusing question and structuring a scaffolded writing task for the text they have been working with in Modules 2 and 3.

**Supporting Documents:**

- Template for Structuring a Writing Task (separate handout)

**PowerPoint Slides:**

- 71

**Part 6: Routine and Daily Writing (35 minutes)**

Coaches will read closely CCRA W.10, “Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of discipline-specific tasks, purposes, and audiences.” They will interpret this standard and discuss why it does not begin until grade 3.

In Activity 6, coaches will review several exemplar units and lessons for embedded writing tasks. They will record and sort these as to where they occur in the units and lessons. They will discuss various ways they see routine writing being incorporated in the units, and how those writing tasks might serve as formative assessment. They will extend this discussion to include routine writing being done in their school or district.

**Activity 9: Reviewing Exemplar Units and Lessons (30 minutes)**

In Activity 9, coaches will review several exemplar units and lessons for embedded writing tasks. They will discuss various ways they see routine writing being incorporated in the units and extend the discussion to ways they or their school colleagues embed writing in their lessons. They will copy or describe writing tasks on sticky notes. After completing the exercise, they will post the sticky notes in a spot designated as OPENING, WORK TIME, or CLOSING of the lesson.

**Supporting Documents:**

Participants will be asked to access electronically during the session, or download and print one or more exemplar units before Module 3 begins.

- Kindergarten: America the Beautiful <http://www.readwritethink.org/classroom-resources/lesson-plans/america-beautiful-using-music-1147.html?tab=4#tabs>

- Grade 2: Author Study, Tomie DePaola <http://www.doe.mass.edu/candi/model/files.html>

- Grade 3: Engage NY Grade 3, M.1, U.1 Becoming a Close Reader and Writing to Learn – The Power of Reading Around the World <http://www.engageny.org/resource/grade-3-ela-module-1-unit-1>
- Grade 4: Using Literary Elements to Determine Theme <http://www.doe.mass.edu/candi/model/files.html>
- Grade 5: Considering Perspectives and Supporting Opinions – Sports and Athletes’ Impact on Culture <http://www.engageny.org/sites/default/files/resource/attachments/5m3a.1.pdf>

### PowerPoint Slides:

- 77-80

## Part 7: Reflection and Planning (30 minutes)

Coaches will individually reflect on the elements of today’s presentation and activities. They will then meet with their school or district colleagues, or with a small group of coaches who are “solo” at today’s workshop, to develop a strategy for sharing Module 3’s key messages with colleagues.

### Activity 10: Reflection (10 minutes)

Working independently, participants review their notes in the Participant Guide and the *Notepad* section from today’s activities and then jot down some key points they think are important.

### Supporting Documents:

- Key Points Template

### PowerPoint Slide:

- 82

### Activity 11: Planning (20 minutes)

Participants develop a strategy for sharing Module 3’s key messages and resources (e.g., presentation, videos, resource links, and aligned instructional practices) with colleagues back at their schools.

### Supporting Documents:

- Key Message and Strategies Template

### PowerPoint Slide:

- 83

### Closing Activities (10 minutes)

Participants will complete a Post-Assessment and an online Session Evaluation.

### Supporting Documents:

- Post-Assessment
- Session Evaluation

### PowerPoint Slide:

- 86-88

## Session Implementation

### Module 3

Slide 1

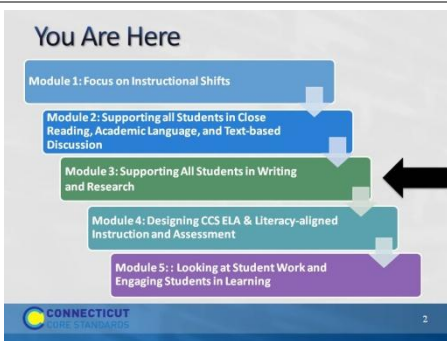

Slides 1-7 will take about 15 minutes.

Facilitator:

Introduce yourself. Welcome participants to Module 3.

Remind participants that regardless of which session they attended for Modules 1 and 2, they learned the same information, and had similar conversations. They are all part of the same community of coaches with a goal of deepening understanding of the CT Core Standards and instructional shifts across the entire state

(Be sure that everyone is wearing a nametag. Since participants are now in their third module, it is likely that many of them will have met each other in earlier modules. There will be no full group introductions this time. They will have the opportunity to introduce themselves during various activities. However, as facilitator, you may want to read the room with regard to who is here from the same district so that you can plan to mix up groups; you may also want to ask if there is anyone who did not attend M1 and M2.)

Slide 2

This slide provides a visual showing how the topics for the professional development modules fit together. Briefly explain to participants.

### Today's Agenda

- Morning Session: CCS-ELA & Literacy
  - Opening and Pre-Assessment
  - Sharing our Successes and Challenges
  - A Close Look at the Writing Standards
  - Writing Grounded in Evidence from Text
- Afternoon Session
  - Research in CCS-aligned Units
  - Supporting All Students in Writing
  - Routine and Daily Writing
  - Reflection and Planning
- Post-Assessment, Session Evaluation, & Wrap Up

3

Slide 3

Review the agenda, noting there will be a break for lunch as well as a short morning and afternoon break. You may want to add the importance of coming back from breaks on time to ensure enough time to complete all the work of the day.

### Introductory Activities

#### Introductory Activities

- Pre-Assessment
- Module 2 Recap
- Quick Write

Page 5

4

Slide 4

Ask participants to complete the Pre-Assessment.

#### CCS-ELA & Literacy: Module 2 Recap

- Backward design process and CCS-ELA & Literacy unit and lesson design
- Deeper understanding of close reading, academic language, and text-based discussion
- Practice with designing a sequence of text-dependent questions
- Integration of close reading, academic language, discussion, and supports in unit and lesson design
- Universal Design for Learning (UDL) and practices to support students in CCS ELA & Literacy

5

Slide 5

The purpose of this slide is just to remind participants of the topics in Module 2. Be very brief with this slide, just naming the topics:

Unit and lesson design overview, close reading, text-dependent questions, academic language, discussion, and Universal Design for Learning.

**Quick Write**

- Jot down ideas to share with fellow Core Standards Coaches about activities or conversations you facilitated in your school or district relative to Module 2. If you encountered challenges, feel free to share those as well!
- Use the *Introductory Activity: Quick Write for Sharing* section of the *Notepad* in your Participant Guide.

6

Slide 6

Facilitator: You will distribute cards from the deck in your supply box. Count the number of participants. Remove as many cards as needed to distribute evenly—or somewhat evenly—in matched fours among participants. For example, if you have 28 participants, you will remove all 8’s–Kings from your deck and keep all Aces–7s to make 28 cards. If you have 32 participants, you would distribute Aces–8’s to make 32 cards and so on. If you have an uneven number that would leave one or two participants alone, add a few more cards from the next number up. Shuffle well. As participants are writing in their *Notepads*, circulate among them, distributing cards. If you have a large district group, break them up for the first activity, by being deliberate in how you distribute the cards.

**CCS-ELA & Literacy: Module 3 Outcomes**

- Review research base and rationale for CCS-ELA & Literacy Writing standards
- Examine vertical progression of writing through student work samples
- Learn how CCS model units teach research skills
- Know how to support all students in writing
- Trace writing instruction in CCS exemplar units and lessons
- Plan support for educators in continuing the transition to the Core Standards and instructional shifts

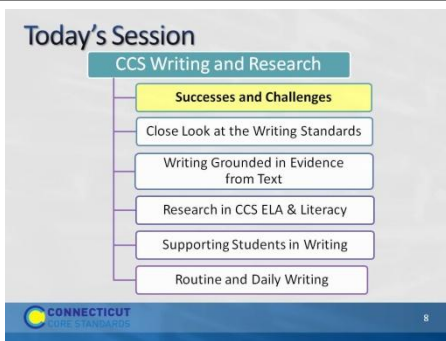

7

Slide 7

Review the expected outcomes briefly. This module will focus on the CC writing standards, writing instruction, and support.

Slide 8

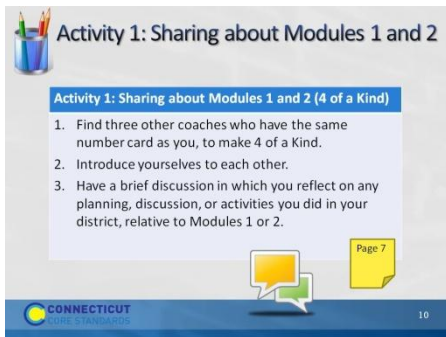

The first thing we will do today is take a few minutes to share some of the discussions, plans, or activities that happened in your school or district between Modules 1 and 2.

### Part 1

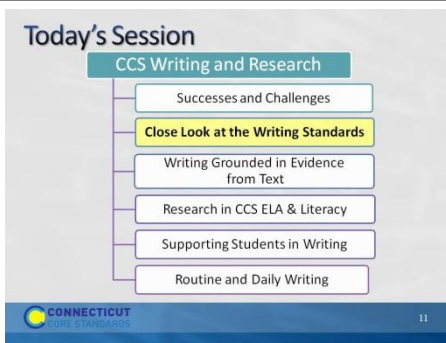

Slide 9

15 minutes total including, directions.

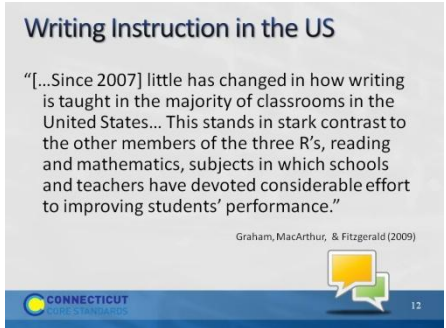

Slide 10

Part 1, including this activity, should take no more than 15 minutes. This slide gives directions for Activity 1. It is meant to be an informal “standing up” activity in which folks introduce themselves to others.

Slide 11

In Part 2 of Module 3, we'll look at the organization of the writing standards and review the first three standards - text types - as they are explained in *Appendix A* of the CCSS. We'll then examine the three types of writing by annotating student writing samples.

Slide 12

F

From Graham, S. & Harris, K. "Designing an Effective Writing Program," in Graham, S., MacArthur, C. & Fitzgerald, J. *Best Practices in Writing Instruction* 2013. New York. Guilford Press.

The purpose of this slide is to bring provide context for this module.

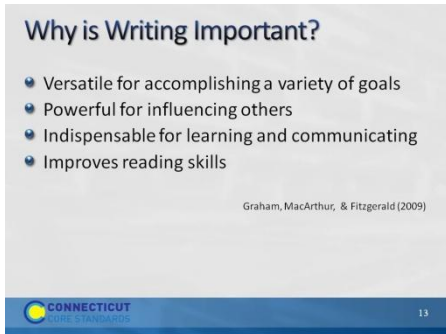

Explain that the text, *Best Practices in Writing Instruction*, which provides evidence-based practices in writing instruction, was originally written in 2007, and has been revised and updated in 2013 to align with the CC standards. The authors and contributors are widely respected experts in the field of writing instruction.

Ask a participant to read the slide, then direct participants to turn and talk with a neighbor. "Do you agree with the authors' statement? **Why do you think less time is devoted to teaching writing than to teaching reading and math?**

After several possible reasons have been offered, share the following information:

The authors make a point that the research behind writing instruction hasn't changed. We know a lot about designing and teaching effective writing programs, and teachers and schools who regularly devote time to teaching writing, do a "phenomenal" job. Current research shows that beyond grade three,

teachers devote little time to teaching writing and students do little writing in or out of school for academic purposes. With a new and rigorous set of standards that make writing a central element, learning to write is strongly emphasized. Students are expected to write for multiple purposes, and use writing to recall, organize, analyze, interpret, and build knowledge about content. With this strong emphasis on writing, it is important for all teachers to teach writing.

Slide 13

The purpose of this is to answer the question: Why is writing important? Versatile:

- Maintain personal links with family and friends
- Share information
- Tell stories
- Create imagined worlds
- Chronicle experiences
- Explore who we are

Powerful: Influences others, e.g. *Uncle Tom’s Cabin*, *The Feminine Mystique*

Indispensable for learning and communicating

- Gather, preserve, and transmit information
- Helps us understand what we read better by processing and organizing

Improves reading skills

- Not identical processes, but research shows that instruction that improves writing skills and process also improves reading skills and processes
- Writers gain insight about reading by writing for audiences
- Quantity of writing improves reading comprehension

Graham (2013) pp. 4-6

### What Determines “Best Practices” in Writing?

- Examine successful methods that exceptional teachers of literacy commonly apply when teaching writing
- Draw from scientific studies testing the effectiveness of specific writing practices

14

Slide 14

Note that throughout this module we will look at both best practices and models.

### CCS-ELA & Literacy Writing Standards

- 3 Standards for Text Types and Purposes
  - Argument/Opinion
  - Explanation
  - Narrative
- 3 Standards for Production and Distribution of Writing (writing process)
- 3 Standards for Research to Build and Present Knowledge
- 1 Standard for Evidence from Text
- 1 Standard for Range of Writing

15

Slide 15

RE: Standard 10, Range of Writing: To build a foundation for college and career readiness, students need to learn to use writing as a way of offering and supporting opinions, demonstrating understanding of the subjects they are studying, and conveying real and imagined experiences and events. They learn to appreciate that a key purpose of writing is to communicate clearly to an external, sometimes unfamiliar audience, and they begin to adapt the form and content of their writing to accomplish a particular task and purpose. They develop the capacity to build knowledge on a subject through research projects and to respond analytically to literary and informational sources. To meet these goals, students must devote significant time and effort to writing, producing numerous pieces over short and extended time frames throughout the year.

### CCS-ELA & Literacy Writing Standards

- CCS.W.4 Produce clear and coherent writing in which the development, organization, and style are appropriate to task, purpose, and audience. (Begins in Grade 3)
- CCS.W.9. Draw evidence from literary or informational texts to support analysis, reflection, and research. (Begins in Grade 4)
- CCS.W.10. Write routinely over extended time frames (time for research, reflection, and revision) and shorter time frames (a single sitting or a day or two) for a range of tasks, purposes, and audiences. (Begins in Grade 3)

16

Slide 16

Authors of Common Core Standards recognized the nature of writing for young children and were realistic in their expectations for assessing writing of young students on challenging or developmentally inappropriate tasks. Nonetheless, teachers of primary grades students can look to grades 3 and 4 for the missing standards and begin to build stamina and good writing habits for when these standards do begin.

### Part 2

### Part 2

- A Close Look at the Writing Standards

17

Slide 17

65 minutes for all of Part 2, including Activities 2 and 3. Introductory slides, 13-14, should take no more than 5 minutes, leaving 1 hour for the remaining activities.

### Activity 2: Types of Writing in CCS-ELA & Literacy

#### Activity 2: Types of Writing in CCS-ELA & Literacy

1. Select a facilitator, timekeeper, recorder, and reporter.
2. Read about one type of writing from the CCS *Appendix A* (located in the Appendix of your Participant Guide).
3. Read once to get the gist.
4. Read a second time to focus on guiding questions and “render” the text.
5. Share and explain.
6. Answer questions and report out.

Pages 9-11

18

Slide 18

Activity 2 will take 30 minutes.

For this activity, group participants in 4’s in any way that works for the groups you have. It’s OK for them to stay with their district if that works out. If there are an odd number, it is better to have a group of 3 than of 5. Direct them to the page in their Participant Guide, and then briefly explain on the **next slide**. They will definitely need their Participant Guide for this.

**Text Rendering Protocol**

- Read one section:
  - Argument (p. 23)
  - Informational/Explanatory (p. 23)
  - Narrative [and Creative] (pp. 23–24)
  - Special Place of Argument (pp. 24–25)
- In your *Notepad*, record a significant **sentence**, a **phrase**, and a **word** related to:
  - The purpose of this type of writing
  - Important ideas from your section
- Take turns sharing with your group, then together, answer the questions in the Participant Guide.

CONNECTICUT CORE STANDARDS 19

Slide 19

Remind participants that full directions, including the questions to answer, are in the Participant Guide.

**Share Out**

- What is one significant or interesting point your group discussed?

How might you use the Text Rendering Protocol with colleagues or in the classroom?

CONNECTICUT CORE STANDARDS 20

Slide 20

Blank.

**A New Resource: *In Common***

- Collection of K–12 student writing samples from around the country
- Organized by writing type and sub-divided by “On-demand Writing” and “Range of Writing”
- Annotated with the language of the CCS
- Intended to supplement Appendix C: Samples of Student Writing
- Provides examples of Common Core-aligned writing for teachers and students

[www.vermontwritingcollaborative.org](http://www.vermontwritingcollaborative.org) <http://www.achievethecore.org/>

CONNECTICUT CORE STANDARDS 21

Slide 21

Slides 18-27, which include Activity 3, will take about 30 minutes.

The purpose of the next two slides is to introduce *In Common* as a resource. Most participants will have heard of *In Common* but may not have had an opportunity to explore it.

There are two types of writing in *In Common*. “On-demand Writing,” written to a common prompt and illustrates developmental spectrum. “Range of writing,” illustrates examples of writing for different tasks, audiences, and purposes over different time frames.

Created by Vermont Writing Collaborative and Student Achievement Partners.

### Cautions from the Authors about Using *In Common*

- Provides examples, not benchmarks
- Should not be used as models for scoring student work
- Chosen to illustrate text types and purposes of Common Core, not to illustrate mastery of conventions
- May not illustrate grade-level language standards
- Meant as a starting point, not a destination

CONNECTICUT  
22

Slide 22

The authors make it clear that these are authentic writing samples to be used for a variety of purposes, but they are not intended to be models. They were intended to supplement Appendix C, which was not sufficient for its intended purpose. This is an ongoing project.

### Activity 3: Examining the Grade Level Expectations of the Writing Types and Texts

#### Activity 3: Examining the Grade Level Expectations of the Writing Types and Texts

1. Choose one set of unannotated student writing K–5: Opinion, Explanation, or Narrative.
2. Annotate the set with the language of the applicable grade level standard: W.1, W.2, or W.3.
3. Compare your annotations with those of the annotated versions of the same sample.
4. Discuss first with your partner and then with your table, using guiding questions.

CONNECTICUT  
23

Slide 23

Approximately 25 minutes for this activity and discussion that follows.

## Guiding Questions for *In Common*

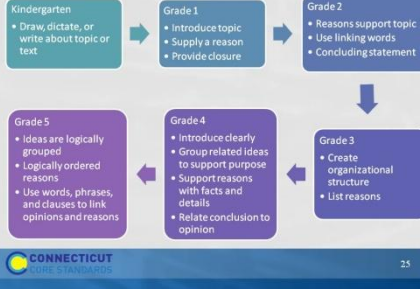

- With your partner
  - What do you notice about the progression of student writing from grade level to grade level?
  - Are these good examples of student writing for the grade level and type of writing? Why or why not?
- With your table
  - What are the similarities in student writing at the same grade level across types of writing?
  - Are the CCS realistic in terms of their expectations for student writing?
- With the whole group
  - How might you use the *In Common* collection with teachers? With students?

Slide 24

Blank.

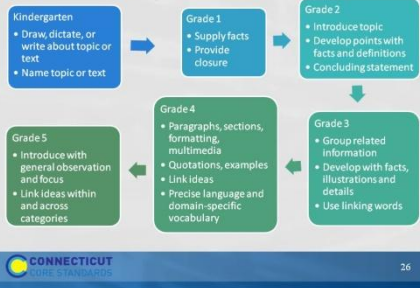

## How Does OPINION Grow?

Slide 25

The purpose of this slide and the next two is to reinforce the preceding conversations by looking at the patterns of writing. CC acknowledges the developmental nature of writing. Notice how 5<sup>th</sup> grade moves toward argument, which begins in Grade 6. Don't spend a lot of time on these slides, but do point out the similarities across writing types in each grade. There is a lot of instruction that will be similar for each writing type.

## How Does Explanation Grow?

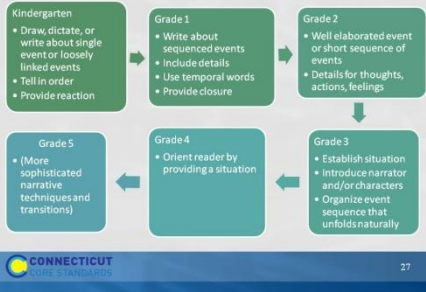

Slide 26

Note that it is in grade 3 where students begin to create an organizational structure that leads the reader. This is true in all three kinds of writing. There is horizontal consistency.

How Does Narrative Grow?

Slide 27

Invite participants to comment: Why might there be no change in grade 5? What does this say about the decreased importance of narrative?

Quick Write

- Use the *Notepad* section in your Participant Guide.
- In the section labeled *Activity 3: Examining the Grade Level Expectations of Writing Types and Texts*, jot down notes about anything you think was significant from this activity that can be applied to CT Core Standards work in your school or district.

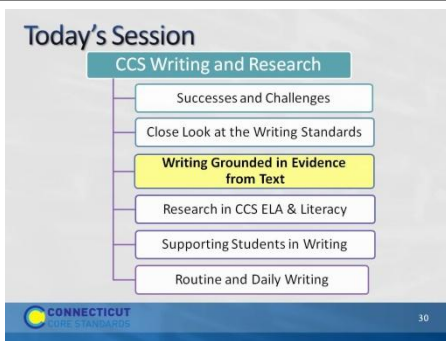

Slide 28

3 minutes.

Slide 29

The break should be 10 minutes. Remind participants to try to be timely in their return.

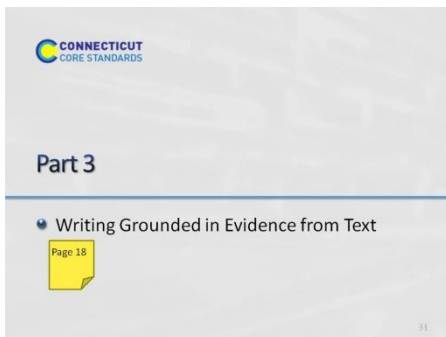

Slide 30

This part of the module will focus on Shift 2, writing, grounded in evidence from the text, and how that develops in elementary school.

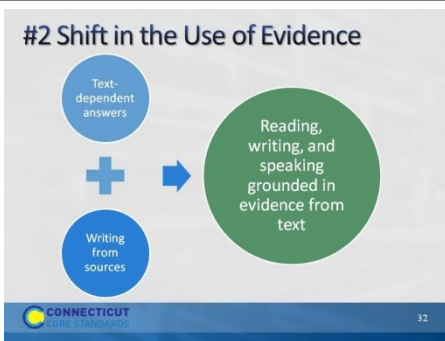

Part 3 is allotted 105 minutes in total. This includes introductory slides and Activities 4 and 5. Activity 4 is 50 minutes, and Activity 5 is 45 minutes. That leaves about 10 minutes for introduction and conclusion of this part.

### Part 3

Slide 31

Part 3 is allotted 105 minutes in total. This includes introductory slides and Activities 4 and 5. Activity 4 is 50 minutes, and Activity 5 is 45 minutes. That leaves about 10 minutes for introduction and conclusion of this part.

Slide 32

Remind participants that in Module 1, we saw that one of three significant instructional shifts required by the CCS is “Reading, writing, and speaking, grounded in evidence from text.” With regard to writing, where in the standards do we find that?

- Writing with Evidence from the CCS**
- [CCSS.ELA-Literacy.CCRA.W.1](#)  
Write arguments to support claims in an analysis of substantive topics or texts...
  - [CCSS.ELA-Literacy.CCRA.W.2](#)  
Write informative/explanatory texts to examine and convey...**information**... analysis of **content**.
  - [CCSS.ELA-Literacy.CCRA.W.7](#)  
Conduct short as well as more sustained **research**...
  - [CCSS.ELA-Literacy.CCRA.W.8](#)  
Gather...information from...**print and digital sources**...
  - [CCSS.ELA-Literacy.CCRA.W.9](#)  
**Draw evidence from literary or informational texts** to support analysis, reflection, and research.
- CONNECTICUT CORE STANDARDS 33

Slide 33

The purpose of this slide is to show that writing from sources/writing with evidence is spread throughout the writing standards. Standard 9 also refers back explicitly to the reading standards at each grade level.

- Writing with Evidence in the Primary Grades**
- [CCSS.ELA-Literacy.W.K.7](#)  
Participate in **shared research** and writing projects (e.g., explore a number of **books** by a favorite author and express opinions about them).
  - [CCSS.ELA-Literacy.W.K.8](#)  
With guidance and support from adults, recall information from experiences or gather information from **provided sources** to answer a question.
- CONNECTICUT CORE STANDARDS 34

Slide 34

These are the Kindergarten standards.

W.9 does not begin until Grade 4, primarily because of the independent and sophisticated nature of both reading and writing required to be successful.

Shift Toward Evidence in Writing Tasks

- NAEP writing expectations are a key design consideration for CCS-ELA & Literacy-aligned assessments
  - 35% of evidence from narrative writing
  - 35% of evidence from explanatory/informational writing based on evidence from given sources
  - 30% of evidence from opinion writing based on evidence from given sources
- Reflected in SBAC writing tasks related to Claim 2

Slide 35

“It follows that writing assessments aligned with the Standards should adhere to the distribution of writing purposes across grades outlined by NAEP.” <http://www.corestandards.org/ELA-Literacy/introduction/key-design-consideration/>

This instructional shift is reflected on the Smarter Balanced assessments as well. Grade 3-5 Summative Assessment Targets, Claim #2

*Students can produce effective writing for a range of purposes and audiences.* 65% of grade 3-5 writing tasks related to Claim 2 on SBAC will include writing from sources.

Using Evidence in Selected and Constructed Assessment Tasks

- What does Naomi learn about Grandma Ruth? Use details from the text to support your answer.
- Revise the paragraph by adding details from the daily schedule that help support the reasons for having a longer school day.

<http://www.smarterbalanced.org/sample-items-and-performance-tasks/>

Slide 36

The use of evidence is reflected in both writing tasks and revision tasks, and requires evidence from a variety of kinds of text, fiction and informational, graphic and video.

Sample Performance Task from SBAC  
Grades 3–5

- You will now examine two sources. Take notes on both sources...
- Choose one animal from the article "Animal Roll-Ups" and one animal from the video "Animal Defenses."
- In your article, identify your two animals, explain how each animal protects itself from its enemies, and explain how the two animals' defenses are similar to or different from one another. Include details from your sources.

37

Slide 37

Although the writing task does not use the word “evidence” which is associated with argument and explanation, beginning in grade 6, there is a clear expectation that information will be grounded in text.

What are “Best Practices” in Writing Instruction?

38

Slide 38

Remind participants that earlier today we learned that “best practices” to teach writing from text are drawn from two sources: common practices of exemplary teachers of writing, and scientific studies. Direct participants to **turn and talk** with a neighbor about practices they believe to be best practices in writing instruction. Then show the next slide and read the details in the facilitator’s notes. Ask participants to listen for the practices they named. Ask them if they are surprised by any, or if they named any they think should have been there and are not.

What are “Best Practices in Writing Instruction?”

- Create a supportive environment where writing can flourish
- Teach writing strategies
- Teach foundational writing skills

**Activity 4: Writing about Text**

**Activity 4: Writing about Text**

1. Your table group will be assigned one section of “Best Practices in Writing about Text.”
2. Read individually and use sticky notes to highlight/annotate key ideas. Please do not write on the handout.
3. Summarize together and decide how to share the information with others.
4. Regroup so that each table has at least one member who has read each section.
5. In turn, “teach” your section of the chapter.
6. Discuss the types of supports students and teachers will need.

CONNECTICUT CORE STANDARDS 40

Slide 40

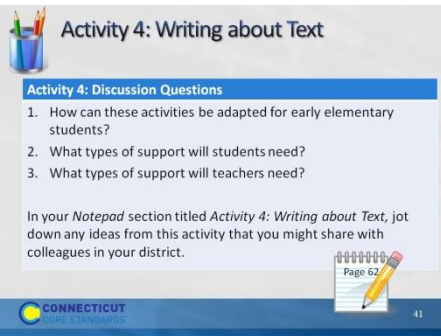

This activity will take 50 minutes. Directions for this activity are in the Participant Guide.

Say: “The purpose of this activity is to become familiar with four research-supported approaches to writing about text.”

Direct participants to turn to the correct page in their guide, then briefly review the directions. When step 6 is completed, move to the next slide.

Assign a number to each table group, reorganizing the tables as needed to even out the size of the groups.

- Assign each table one section of “Best Practices in Writing about Text.”  
Sections are as follows:
  - Intro - pp. 334–335
  - Writing to Text Models – pp 336–338
  - Summarizing Text – pp. 338–340
  - Writing about Text – bottom p. 340–343
  - Text Synthesis – pp. 343–347
- Direct participants to read individually use sticky notes to highlight/annotate key ideas. (10 minutes)  
Remind participants not to write on the handout as these will be collected and reused at future sessions.
- Each table summarizes their section together, and decides how to best share the information with others in a 3-minute presentation. (10 minutes)
- Regroup so that each table now has at least one member who has read each section.
- In turn, “teach” your section of the chapter. (15 minutes – 3 minutes per group)
- Discuss: How can these research-based practices be adapted for early elementary students? What support will students need in order to do the types of writing described in this chapter? What support will teachers need? (10 minutes)

**Activity 4: Writing about Text**

**Activity 4: Discussion Questions**

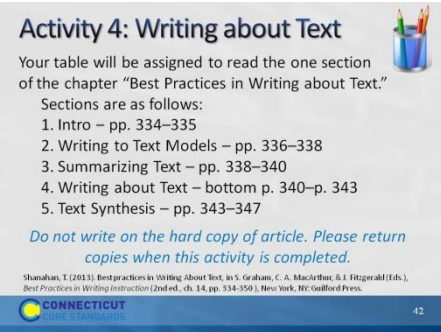

1. How can these activities be adapted for early elementary students?
2. What types of support will students need?
3. What types of support will teachers need?

In your *Notepad* section titled *Activity 4: Writing about Text*, jot down any ideas from this activity that you might share with colleagues in your district.

CONNECTICUT CORE STANDARDS 41

Slide 41

Discuss: How can these research-based practices be adapted for early elementary students? What support will students need in order to do the types of writing described in this chapter? What support will teachers need? (10 minutes)

**Activity 4: Writing about Text**

Your table will be assigned to read the one section of the chapter “Best Practices in Writing about Text.”

Sections are as follows:

1. Intro – pp. 334–335
2. Writing to Text Models – pp. 336–338
3. Summarizing Text – pp. 338–340
4. Writing about Text – bottom p. 340–p. 343
5. Text Synthesis – pp. 343–347

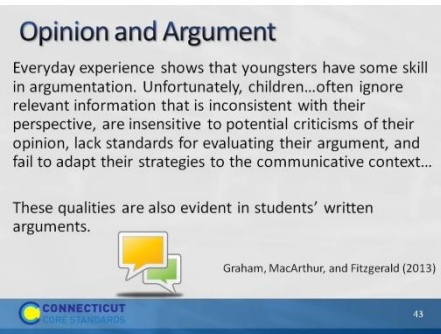

*Do not write on the hard copy of article. Please return copies when this activity is completed.*

Shanahan, T. (2013). Best practices in Writing About Text, in S. Graham, C. A. MacArthur, & J. Fitzgerald (Eds.), *Best Practices in Writing Instruction* (2nd ed., ch. 14, pp. 334–350). New York, NY: Guilford Press.

CONNECTICUT CORE STANDARDS 42

Slide 42

Blank.

**Opinion and Argument**

Everyday experience shows that youngsters have some skill in argumentation. Unfortunately, children...often ignore relevant information that is inconsistent with their perspective, are insensitive to potential criticisms of their opinion, lack standards for evaluating their argument, and fail to adapt their strategies to the communicative context...

These qualities are also evident in students’ written arguments.

Graham, MacArthur, and Fitzgerald (2013)

CONNECTICUT CORE STANDARDS 43

Slide 43

The purpose of this slide is to address a particular kind of writing with evidence–argument. Although argument does not start until grade 6, it is really just a matter of semantics and formality. Students begin expressing opinions in Kindergarten and build toward formal argumentation.

**How Does Opinion Grow into Argument?**

Grade 3	Grade 5	Grade 6
<ul style="list-style-type: none"> <li>Write opinion pieces on topics or texts supporting a point of view with reasons</li> <li>Organizational structure</li> <li>Linking words</li> </ul>	<ul style="list-style-type: none"> <li>Write opinion pieces on topics or texts supporting a point of view with reasons and information</li> <li>Organizational structure...ideas are logically grouped to support purpose</li> <li>Link opinions and reasons</li> </ul>	<ul style="list-style-type: none"> <li>Write arguments to support claims with clear reasons and relevant evidence</li> <li>Introduce claim and organize reasons and evidence clearly</li> <li>Clear reasons...relevant evidence...credible sources</li> <li>Formal style</li> </ul>

CONNECTICUT CORE STANDARDS 44

Slide 44

This slide is reminiscent of an earlier slide when we were discussing text types. This one shows how opinion builds to argument, so that fifth graders are prepared to begin writing argument in sixth grade.

**Activity 5a: Text Evidence to Support an Argument**

**Activity 5a: Viewing a Video and having a “Written Conversation”**

- View the video and take notes in your *Notepad* for this question: **How does the teacher prepare students to write with evidence?** (15 minutes)
- Identify a partner for a Written Conversation.
- Write simultaneous communications to one another about the video.
- At the facilitator’s signal, trade notes, for a total of 3 exchanges. This is done in silence. (10 minutes)
- When the facilitator gives the signal, you can talk out loud with your partner. (3 minutes)
- Be prepared to volunteer a highlight or thread of your conversation.

Video: “Text Evidence to Support an Argument.”  
<http://commoncore.americaachieves.org/module/17>

CONNECTICUT 45

Slide 45

This activity will take about 45 minutes.

The purpose of this activity is to illustrate that young students can write well-developed arguments if given scaffolding and support. Briefly review the directions. Explain to participants that after they view the video and take individual notes, they will engage in a protocol, *Written Conversation*, that is a powerful discussion protocol to use with students. Direct participants to the appropriate pages in their Participant Guides. Have them review the directions for the activity.

Explain that they will be watching 3 clips from a longer video that are representative of the entire lesson. The video is called *Text Evidence to Support an Argument*. This teacher is actually focusing on Reading, Speaking and Listening, and Language standards, not W.1. She is teaching students about finding evidence in text. Participants are likely to notice that the teacher is using a basal anthology; since this realization may interfere with the lesson for some participants, it is better to acknowledge up front that they will notice she is using a piece of authentic literature from a reading series. This is a fairly long video. It will be about 9 minutes: Minutes 1- 3:50; 7:30- 10:30; and 12- 13:40.

<http://commoncore.americaachieves.org/module/17>

After the video, be certain that each participant has a partner. If there are odd numbers, there can be a trio. Be sure to watch the time and signal when partners should trade. After partners have had an opportunity to speak aloud, be sure to ask them why or how *Written Conversation* would be an effective strategy to use as a discussion protocol with students.

**Activity 5b: Text Evidence to Support an Argument**

**Activity 5b: Looking at Student Work**

1. Look at the samples of student work generated as a result of the lesson sequence in the video.
2. Talk with your table:

To what extent did the instructional activities prepare students to write with evidence from the text?

Page 23

CONNECTICUT CORE STANDARDS 46

Slide 46

Bon Appétit

CONNECTICUT CORE STANDARDS 47

Slide 47

Remind participants of the need to be timely. Allow 45 minutes. State time to return.

**Today's Session**

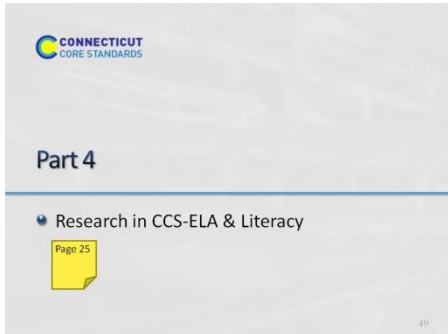

- CCS Writing and Research
  - Successes and Challenges
  - Close Look at the Writing Standards
  - Writing Grounded in Evidence from Text
  - Research in CCS ELA & Literacy**
  - Supporting Students in Writing
  - Routine and Daily Writing

CONNECTICUT CORE STANDARDS 48

Slide 48

One group of writing standards is focused on research skills. However, the CCS are explicit in pointing out that research is integrated throughout the standards.

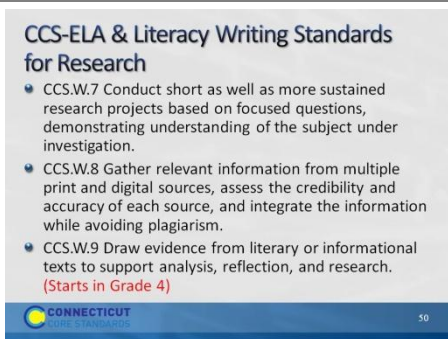

Part 4

Slide 49

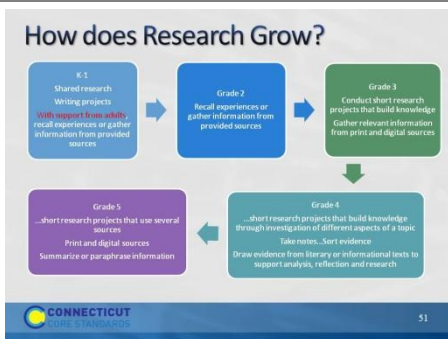

Part 4 is allotted 60 minutes.

In this section, we'll look at the standards related to research and technology, and think about what that means for elementary students and teachers, especially at the earliest grades. One of the best ways to do this is to look at units that have been developed by teachers and writers who have worked closely with the authors of the CC.

Slide 50

The purpose of this slide is to show the writing standards that focus on research skills.

Slide 51

Increased independence, more complex tasks, more complex sources, multiple sources. In grade 4, addition W.9, which links Grade 4 reading standards with writing standards.

**Activity 6: Research in CCS-aligned Units**

**Activity 6: Research in CCS-Aligned Units**

1. Your group will develop expertise on one research unit.
2. Together, skim your unit (or module) to see how it is organized. If it is long or complex, you may want to divide it among pairs.
3. Read and use the “Developing Research” Organizer for notes.
4. Be sure to **notice and note how research skills are taught!**
5. Create a poster with words and symbols to represent the **way research skills are taught and developed** in your unit.
6. Prepare to “host” other groups at your poster on a gallery walk.

CONNECTICUT DEPARTMENT OF EDUCATION  
 Page 25  
 52

Slide 52

The review of the units and the hosted gallery walk are allotted 45 minutes. Allow 20 minutes to review the units, another 10 to create the poster, and 15 for the hosted gallery walk. It will be tight. Emphasize the importance of dividing large units, especially the NY modules which have 3 units in a research module.

Facilitator: If you’d like, you can creatively use the cards that participants were dealt this morning to form 5 groups. Or if you’d like, you can just number off; for example a group of 30 can number off by sixes to form five groups of six each. Don’t go bigger than 6 in a group. Instead, add another of the research units from the Engageny website: Grade 4, Module 2B Reading Closely and Writing to Learn: Animal Defense Mechanisms

<http://www.engageny.org/sites/default/files/resource/attachments/4m2b.module.1.pdf>

**Activity 6: Research in CCS-aligned Units**

**Activity 6: Links for Research Units**

**Grade 1:** *Informational Text, Research, and Inquiry Circles: Animals and Habitats*

**Grade 2:** *Informational Text: Reading for Inquiry and Writing a Report*

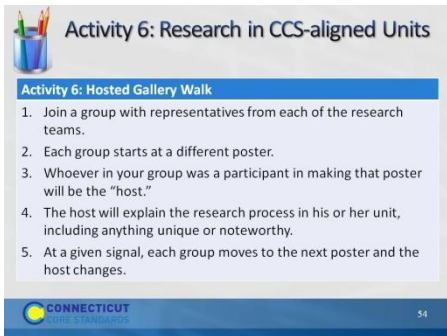

**Grade 4:** *Reading and Writing Informational Texts: Negro League Baseball*

<http://www.doe.mass.edu/candi/model/files.html>

CONNECTICUT DEPARTMENT OF EDUCATION  
 53

Slide 53

Facilitator: You do not have to do anything with this slide; it is for the convenience of participants who are following along with the PPT. There will be hard copies of each of the modules for the participants to choose. Since all three modules are located on the same website, there is only one web address for them to retrieve a copy of all three units.

**Activity 6: Research in CCS-aligned Units**

**Activity 6: Hosted Gallery Walk**

1. Join a group with representatives from each of the research teams.
2. Each group starts at a different poster.
3. Whoever in your group was a participant in making that poster will be the “host.”
4. The host will explain the research process in his or her unit, including anything unique or noteworthy.
5. At a given signal, each group moves to the next poster and the host changes.

CONNECTICUT CORE STANDARDS 54

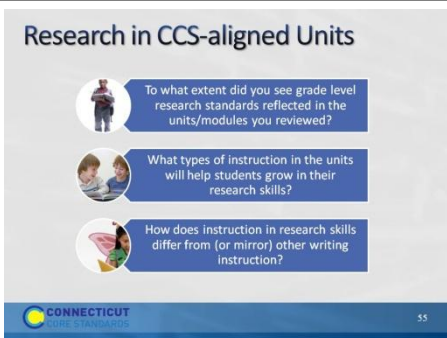

Slide 54

Re-group participants so that each new group has one member from each former team. There should be a representative from each unit in each group. So, if there were six teams working on the three units (2 teams per unit) they should make six new groups with representatives from the six research teams. These groups should be formed standing up, not seated. Although some participants reviewed the same unit, they will create different charts. They should be hung together in order to see the different areas that each team focused on as well as the “missed opportunities” for building research skills within the unit.

Tell groups what the signal will be (e.g. rhythmic clap, lights flicking, stopwatch on your cell phone, or on the computer). It can be an audible or visible signal. Depending on the number of groups, allow approximately 2 minutes at a poster, then move participants to the next poster. With movement, this activity should take about 15 minutes.

Hosted Gallery Walk adapted from Expeditionary Learning’s Protocols and Resources on EngageNY: [http://www.engageny.org/sites/default/files/resource/attachments/appendix\\_protocols\\_and\\_resources.pdf](http://www.engageny.org/sites/default/files/resource/attachments/appendix_protocols_and_resources.pdf)

The hosted gallery walk involves small-group collaboration to create a product, yet makes individuals responsible for the learning and the teaching.

**Research in CCS-aligned Units**

- To what extent did you see grade level research standards reflected in the units/modules you reviewed?
- What types of instruction in the units will help students grow in their research skills?
- How does instruction in research skills differ from (or mirror) other writing instruction?

CONNECTICUT CORE STANDARDS 55

Slide 55

This slide provides closure to the Gallery Walk. Encourage volunteers to offer responses, based on their review of units and the Gallery Walk.

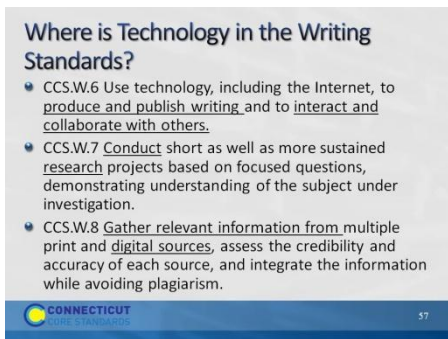

Slide 56

This slide reminds coaches of the importance of research for building knowledge in the disciplines. It is especially important that writing is included as an integral part of content instruction in disciplines like science, social studies, and mathematics. This slide reminds coaches of the importance of research for building knowledge in the disciplines.

Full quote: “It is especially important that writing is included as an integral part of content instruction in disciplines like science, social studies, and mathematics. For example, when students write informative papers about the content they are learning in social studies (the consequences of the westward movement in American history as illustrated through the Oregon Trail, for instance), it forces them to makes decisions about (1) what information is most important; (2) what consequences were positive, negative, or both; and (3) how their findings should be organized and presented. Such analyses and interpretation forces students to wrestle with the content, especially if they have to defend the choices they made (e.g., why were the consequences they presented important).”

Graham, S. (2013). Writing Standards. In Morrow, L.M., Wixson, K.K., & Shanahan, T. (Eds.), *Teaching with the common core standards*. (p. 102).

Slide 57

Technology is integrated throughout the standards. It is specifically embedded in the research standards. This could be considered a shift from former standards, which frequently isolated technology as an end

in itself.

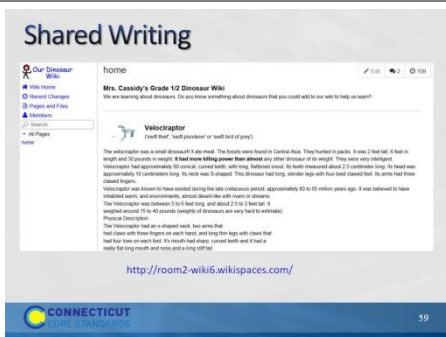

Slide 58

The next slides illustrate several technology applications that support the CCS.

This project illustrates the Kindergarten research standards as well as the use of technology. This VoiceThread, *All About Polar Bears*, Kindergarten ESL by Monica Schnee, won a PBS Teacher Innovator Award. The authors of the "book" are kindergartners who were learning English as a second language. Some of the children barely spoke English, as you can see by the short sentences, and some were advanced students. They had just started to learn how to read and write. This work is a great example of how children learn a second language, how they learn literacy, how they learn oral fluency and practice their oral skills and most importantly, how their parents were able to see and hear how their children are learning English.

The teacher: We spent a lot of time reading books, looking at websites, particularly National Geographic and Nature on PBS. We collected facts, a word that children learned in nonfiction. Then, each student chose a fact, wrote it and had to illustrate it like a true nonfiction illustrator. Therefore, the drawings had to be in "real colors". After we finished our "traditional hard copy" book. We read it to all the kindergartners, including their American peers. Then we practiced our lines and made it into a VoiceThread.

Slide 59

<http://www.wikispaces.com/content/classroom/about>

**Project-Based Learning**

Project-Based Learning is a dynamic approach to teaching in which students explore real-world problems and challenges. With this type of active and engaged learning, students are inspired to obtain a deeper knowledge of the subjects they're studying.

Wikispaces Classroom provides a simple structure that allows you to create projects, define teams, assign students and manage them all through successful completion of their projects. Starting from pre-built templates, or a blank slate, students can work in private groups until their work is due. At the end of the project you can share the results with the rest of the class or even parents and other participants. In the project illustrated, the teacher asks students to contribute to the wiki.

Slide 60

A Glog is an interactive visual platform in which users create a “poster or web page” containing multimedia elements including: text, audio, video, images, graphics, drawings, and data.

The teacher creates projects with templates and instructional guidelines, assigns them to the students, provides feedback throughout the assignment, and assesses their finished work.

Once projects are complete, the teacher can share students’ work in a variety of educational settings. Glogs can be embedded in a blog, wiki, or web page or shared with others using Glogster.

Slide 61

With Google Earth, teachers can create customized field trips for shared research. This is great for

primary classes.

**Digital Literacy Skills Students Need**

- Refined search skills
- Ability to evaluate the veracity of sources
- Ability to synthesize information from multiple sources
- Practice in sending clear, unambiguous messages in online environments
- Skills for navigating social media and collaborative environments

Adapted from <http://www.newliteracies.uconn.edu/events.html>

CONNECTICUT 62

Slide 62

The New Literacies Research Lab at the University of Connecticut is the most widely recognized center in the world for conducting research on the new reading comprehension and learning skills required by the Internet and other emerging information and communication technologies. Their work develops research-based evidence to prepare students for their literacy and learning future. They are currently developing an online assessment to determine students digital literacy skills. They have determined areas in which students struggle with digital literacy. The list on this slide is derived from their research.

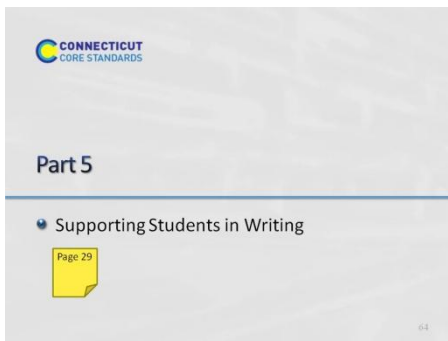

**Today's Session**

- CCS Writing and Research
  - Successes and Challenges
  - Close Look at the Writing Standards
  - Writing Grounded in Evidence from Text
  - Research in CCS ELA & Literacy
  - Supporting Students in Writing**
  - Routine and Daily Writing

CONNECTICUT 63

Slide 63

In Module 2, we considered ways to support students in reading closely and drawing evidence from text. Because of the integrated nature of the CCS, many of those supports address writing as well as reading.

Slide 64

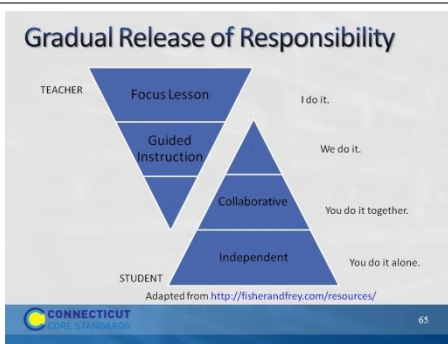

Part 5 will take about 55 minutes:

Intro: 5

Activity 7: 10

Activity 8a: 20

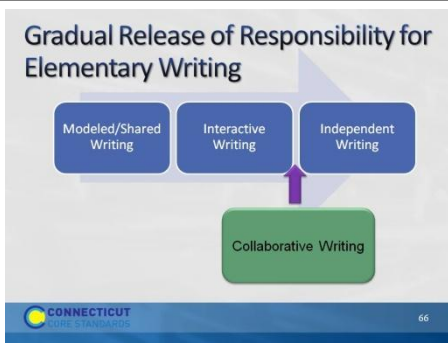

Activity 8b: 20

Slide 65

Fisher & Frey. Literacy for Life <http://fisherandfrey.com/resources/>

Fisher and Frey have created a graphic to illustrate gradual release of responsibility. For most coaches, this is really a review, not new information. However, it is important to emphasize that given the rigor of the writing standards, it is important to model, guide, and provide practice for students before expecting individual mastery of writing.

Slide 66

Many coaches will be familiar with writing in a balanced literacy program. In modeled writing, the teacher thinks aloud and writes. In shared writing, the teacher and students compose together and the teacher scribes. In interactive writing, the pen is shared with students doing some of the writing. The CCS would add another step to this: Collaborative writing. There is a strong emphasis on collaboration in the CCS, and it aligns with the Fisher and Frey model as well.

**Activity 7: Viewing a Video**

Activity 7: Viewing a Video

1. View the third segment of a video lesson begun in Module 2. Today's segment is *Putting Thoughts on Paper*.
2. As you view, jot notes in your *Notepad*: What do you see and hear in this class? Be sure to look around the classroom as well as listening to and looking at the immediate activity on camera.
3. Discuss with your table, using the prompts in your participant guide and on the next slide.

<https://www.teachingchannel.org/videos/analyzing-text-writing>

Pages 29-34

CONNECTICUT CORE STANDARDS 67

Slide 67

Remind participants that in Module 2, we saw a video of a fifth grade class (teacher Stacey Brewer). Ms. Brewer explained that she had a very diverse class and that she planned her lessons in such a way that all students could participate, contribute, and be prepared, regardless of their independent reading level. They read a text about Lewis and Clarke, took individual notes with post-its, discussed in a small group, and then as a whole class. Today we will see the last piece of that video, where Ms. Brewer supports students in preparing to respond in writing.

<https://www.teachingchannel.org/videos/analyzing-text-writing> - 00:00 – 05:00

### Discussion Prompts for Activity 7

- What were some of the strategies and supports you saw and heard the teacher use?
- What did you notice about student participation and responses?
- To what extent did this teacher and the lesson sequence prepare students to be competent and confident in their writing?
- What do teachers need to know and be able to do in order to be able to effectively prepare students to write?

Slide 68

After discussion, be sure to elicit responses from volunteers. Or, let tables know that you will be calling on someone to answer each question. The last question is particularly important for coaches.

### Resource: Basal Alignment Project

Slide 69

The purpose of this slide is to introduce the Basal Alignment project. This project is led by Student Achievement Partners, but is carried out by teacher volunteers. The goal is to rewrite lessons from basal reading programs to align with the Common Core. It is an Edmodo site, which can be joined free of charge.

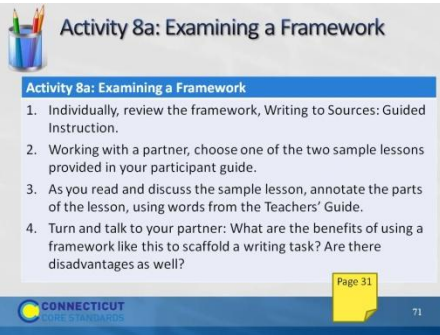

### Introduction to Writing to Sources: Guided Instruction

- Written by Student Achievement Partners and Council for Great City Schools
- Framework for scaffolding writing after closely reading a text
- Helps students build deeper meaning
- Intended to accompany the Basal Alignment project lessons
- Adaptable for any elementary literature writing task

Slide 70

A recent addition to the Basal Alignment Project are Writing to Sources lessons, aligned with the BAP reading lessons.

**Activity 8a: Examining a Framework**

**Activity 8a: Examining a Framework**

1. Individually, review the framework, Writing to Sources: Guided Instruction.
2. Working with a partner, choose one of the two sample lessons provided in your participant guide.
3. As you read and discuss the sample lesson, annotate the parts of the lesson, using words from the Teachers' Guide.
4. Turn and talk to your partner: What are the benefits of using a framework like this to scaffold a writing task? Are there disadvantages as well?

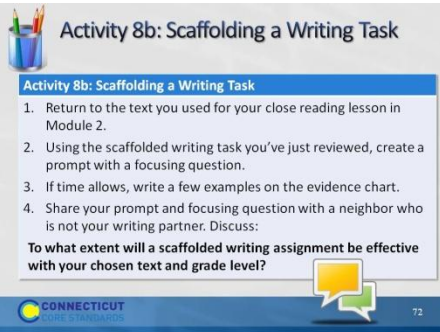

Page 31

CONNECTICUT CORE STANDARDS 71

Slide 71

Allow 20 minutes for this activity, about 8 to review the framework, and 10 to annotate the sample lesson, then another 2 for the turn and talk prompt.

The Writing to Sources framework is available on Edmodo, in the Basal Alignment Project [https://www.edmodo.com/home#/group?id=1121902&sub\\_view=folders](https://www.edmodo.com/home#/group?id=1121902&sub_view=folders)

**Activity 8b: Scaffolding a Writing Task**

**Activity 8b: Scaffolding a Writing Task**

1. Return to the text you used for your close reading lesson in Module 2.
2. Using the scaffolded writing task you've just reviewed, create a prompt with a focusing question.
3. If time allows, write a few examples on the evidence chart.
4. Share your prompt and focusing question with a neighbor who is not your writing partner. Discuss:

**To what extent will a scaffolded writing assignment be effective with your chosen text and grade level?**

CONNECTICUT CORE STANDARDS 72

Slide 72

For this activity, explain that participants will be using the story or text for which they wrote a series of text-dependent questions in Module 2. If both partners are attending this session today, it would be good for them to work together on 8a and 8b.

If a participant did not attend Module 2, or does not have a text, he or she may work with a text from the box of books at the location, or with an Appendix B exemplar. However, he or she will need to choose quickly after 8a in order to have enough time to complete 8b.

Allow 20 minutes for 8b: 15 to create a prompt and 5 to debrief.

**Resource: Literacy Design Collaborative (LDC)**

- Instructional system for developing literacy skills.
- Builds students’ literacy skills and understanding of content through reading and writing assignments aligned to the CCS.
- Basic building block is a module, two to four weeks of instruction comprising a “teaching task,” standards, “mini-tasks,” and other instructional elements.
- Working with LDC’s framework and tools, teachers develop a literacy-rich task and design instruction to help students complete that task.

<http://ldc.org/>

73

Slide 73

The purpose of this slide is to briefly introduce a powerful resource. LDC is a national community of educators providing a teacher-designed and research-proven framework, online tools, and resources for creating literacy-rich assignments and courses across content areas. They have developed an entire system of templates to create instruction leading to literacy performance tasks in every discipline. These templates and tasks have recently been extended to lower grades.

**LDC Template Task**

**LDC Elementary Template Tasks - Argumentation**

- Elementary Task 1 Template:** (insert question) After reading \_\_\_\_\_ (literary or informational texts), write an \_\_\_\_\_ (product) in which you answer the question and explain your reasons. \_\_\_\_\_ (content). Cite \_\_\_\_\_ (in, some, or my examples from \_\_\_\_\_ (text/s)) to support your opinion. (Argumentation/Explain)
- Elementary Task 1 Science Example:** *Is pizza a nutritious food product?* After reading the two provided articles, write a topic in which you answer the question and explain your reasons from a health and science point of view. Give an example from the articles to support your opinion.
- Elementary Task 1 ELA Example:** *Would you recommend Quentin's Wish to a friend?* After reading this book, write a book review in which you answer the question and explain your reasons with reference to the author's use of story-telling strategies. Give several examples from the book to support your opinion.
- Elementary Task 2 Template:** (insert optional question) After reading \_\_\_\_\_ (literary or informational texts), write an \_\_\_\_\_ (product) in which you compare \_\_\_\_\_ (content). Cite \_\_\_\_\_ (in, some or my examples from \_\_\_\_\_ (text/s)) to support your opinion. (Argumentation/Compare)
- Elementary Task 2 Social Studies Example:** *Which calendar would you prefer?* After reading an article on the ancient Mayan calendar and another on the current calendar, write a topic in which you compare the two calendars. Give two examples from each article to support your opinion.

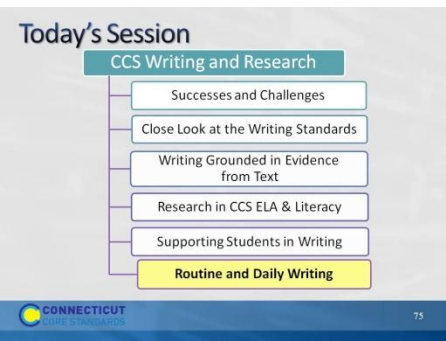

<http://ldc.org/sites/default/files/LDC-Elementary-Template-Tasks-v1.pdf>

74

Slide 74

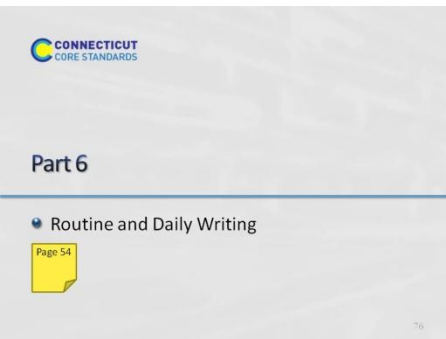

Facilitator, read a few examples to show the versatility of these templates. Encourage participants to explore this website if they have not done so. There are examples of full units of study leading to these types of performance tasks.

Slide 75

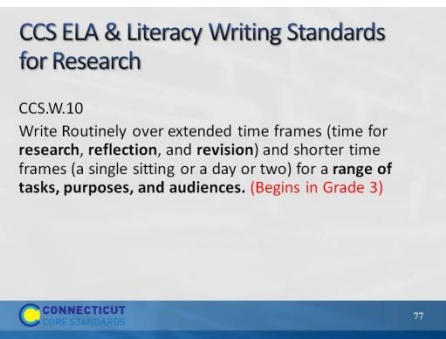

This part of the module will examine W.9.

### Part 6

Slide 76

Blank

Slide 77

The purpose of this slide is to set a CCS context for regular writing practice.

**Activity 9: Writing Tasks in Exemplar Units**

**Activity 9: Writing Tasks in Exemplar Units**

1. Choose and access one of the exemplar units (titles and links in participant guide), or use a unit you printed at home.
2. Working with a partner, identify writing tasks and writing instruction embedded in the unit and write into graphic organizer (example on next slide).
3. Record your writing tasks on large sticky notes and post as *Opening*, *Work Time*, or *Closing* on chart paper.
4. Discuss with guiding questions.

Page 54

CONNECTICUT CORE STANDARDS 78

Slide 78

Allow 15 minutes for looking at units and doing graphic organizer. Allow another 5 minutes for posting on charts and sharing out by volunteer. 5 minutes for table discussion and 5 minutes to share out with whole group.

Facilitator, be sure to post on one wall 3 chart papers, labeled, “Opening,” “Work Time,” and “Closing.” The purpose of this activity is for participants to recognize the variety of ways in which routine writing and more formal writing is embedded in CCS-ELA & Literacy-aligned units, and discuss how daily writing supports learning and builds literacy skills, and how it scaffolds students to successfully meet the standards.

(If units printed for ELA Module 2 are available, they may be substituted for this activity. Please ask participants to take notes on the organizer in their participant guides, not on the printed units.)

Links to the units will be provided in the session materials on the CT core standards website:

- Kindergarten: America the Beautiful <http://www.readwritethink.org/classroom-resources/lesson-plans/america-beautiful-using-music-1147.html?tab=4#tabs>
- Grade 1: Creative Problem Solving with Ezra Jack Keats <http://www.readwritethink.org/classroom-resources/lesson-plans/creative-problem-solving-with-1023.html>
- Grade 2: Author Study, Tomie DePaola <http://www.doe.mass.edu/candi/model/files.html>
- Grade 3: Engage NY Grade 3, M.1, U.1 Seeking the Power of Education and Reading <http://www.engageny.org/resource/grade-3-ela-module-1-unit-1>
- Grade 4: Using Literary Elements to Determine Theme <http://www.doe.mass.edu/candi/model/files.html>
- <http://www.doe.mass.edu/candi/model/files.html>
- Grade 5: Considering Perspectives and Supporting Opinions – Sports and Athletes’ Impact on Culture <http://www.engageny.org/sites/default/files/resource/attachments/5m3a.1.pdf>
- They will record their tasks on a graphic organizer and on individual sticky notes. They may want to have one partner write on the organizer and one do the sticky notes. Go to next slide for example.

**Activity 9: Writing Tasks in Exemplar Units**

**Activity 9: Links to Exemplar Units**

**Kindergarten:** *America the Beautiful* <http://www.readwritethink.org/classroom-resources/lesson-plans/america-beautiful-using-music-1147.html?tab=4#tab5>

**Grade 1:** *Creative Problem Solving with Ezra Jack Keats* <http://www.readwritethink.org/classroom-resources/lesson-plans/creative-problem-solving-with-1023.html>

**Grade 2:** *Author Study, Tomie DePaola* <http://www.doe.mass.edu/candi/model/files.html>

**Grade 3:** *Seeking the Power of Education and Reading* <http://www.engageny.org/resource/grade-3-ela-module-1-unit-1>

**Grade 4:** *Using Literary Elements to Determine Theme* <http://www.doe.mass.edu/candi/model/files.html>

**Grade 5:** *Considering Perspectives and Supporting Opinions – Sports and Athletes’ Impact on Culture* <http://www.engageny.org/sites/default/files/resource/attachment5/5m3a.1.pdf>

CONNECTICUT CORE STANDARDS 79

Slide 79

Facilitator, you do not have to do anything with this slide. Its purpose is to allow participants who are following along with the PPT on their computers to copy and paste a link into their browser or to link directly from the PPT.

**Activity 9: Writing Tasks in Exemplar Units**

**Example from Grade 4: Using Literary Elements**

Day	Task	Purpose	Part O, W, C
1	Notes for Think, Pair, Share	Prepare something to share	O
1	Journal response	Reflect on author's words, predict	C
2	Journal response	Connect three chapters, predict	C
2	Draw a picture of setting and write sentences describing scene	Formative assessment	C

CONNECTICUT CORE STANDARDS 80

Slide 80

Let participants know that some of the units are far more complex than others and may have more writing tasks. A way to save time is, if there is a repeated writing task, e.g., journal writing, they can write it once and indicate that it is repeated. Explain to participants that at the earliest grades, much of the writing may be shared writing, and that’s OK to record.

The intent is not to get through the unit, but rather to see the variety of ways in which W.10 is reflected in CCS-aligned units.

### Activity 9: Writing Tasks in Exemplar Units

- Discuss: What did you notice about writing in CCS-aligned units?
  - Types and purposes of writing
  - Writing as a scaffold, model, or preparation for other tasks
  - Writing instruction
  - Writing as assessment
- Record in your *Noteпад* any ideas you have for how you might use this activity in your school or district.

CONNECTICUT  
CORE STANDARDS

81

Slide 81

Allow 5 minutes for this discussion and another 5 for sharing out.

Explain that this is intended to be an open discussion and these are just suggestions for where the conversation might go.

CORE STANDARDS

### Part 7

- Reflection and Planning

82

Slide 82

Blank.

### Activity 10: Reflection

#### Activity 10: Reflection

1. Individually review your notes and activities from today.
2. List some key points that you think are important to share with colleagues in your school or district.

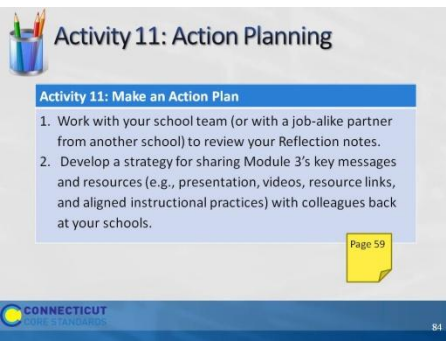

Page 58

CORE STANDARDS

83

Slide 83

Allow 10 minutes for this activity; adjust time as needed.

**Activity 11: Action Planning**

**Activity 11: Make an Action Plan**

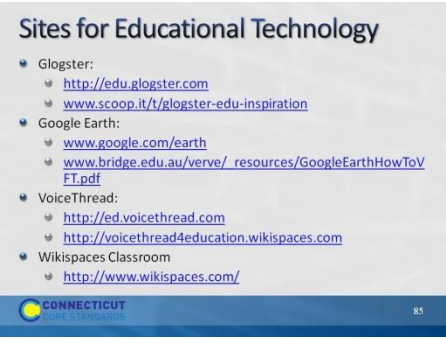

1. Work with your school team (or with a job-alike partner from another school) to review your Reflection notes.
2. Develop a strategy for sharing Module 3's key messages and resources (e.g., presentation, videos, resource links, and aligned instructional practices) with colleagues back at your schools.

Same as previous slide

Closing Activities

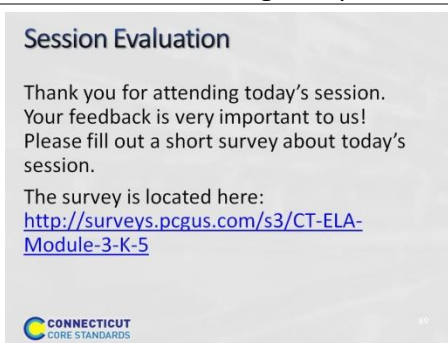

Slide 87

Adjusting for time, you may want to ask groups to share some of their ideas from Activity 10.

Slide 88

The Post-Assessment will be the same as the Pre-Assessment they took in the beginning of the session. Ask for further thoughts, questions.

Slide 89

Remind participants to complete the online Session Evaluation. Ask for further thoughts, questions.
