CSDE Performance Office Data Analysis and Reporting Tools

Application	Access	Users	Data	Important Features
EdSight*	Public	Public	Aggregate data including enrollment, attendance, educator information, course-taking, graduation rates, summative assessment results, Connecticut Report Cards, Next Generation Accountability Reports, Condition of Education, etc.	• The Connecticut Report Card (CRC) is available on the landing page. The CRC for every district, school, and the state provides trends on metrics including enrollment, absenteeism, suspension/expulsion, expenditures, achievement, accountability, graduation, and college readiness. • The Next Generation Accountability reports are also available on the landing page. These reports are available by state, district and school. • Profile and Performance Reports (PPRs) are available on the landing page. PPRs include every subgroup performance index. • When necessary, values are suppressed to maintain confidentiality.
EdSight Secure	ID/Password Required	District-level and school-level users	Student-level information for Connecticut SAT School Day, Smarter Balanced Achievement, Smarter Balanced Growth, LAS Links Achievement, LAS Links Growth, CMT/CAPT Science, NGSS, Early Indication Tool (EIT), Student Summary, FAFSA Completion, Educators with Active Endorsements	• There is no data suppression. • The Connecticut SAT School Day roster includes cancelled scores. • The Smarter Balanced Achievement reports include growth targets, an October 1 indicator, the High Needs flag, and a current/tested district filter. • The system incorporates data visualization tools including trend graphics. • The system includes a search by SASID or student last name. • All data files can be exported and used with other software programs. • Access must be authorized by the Superintendent.

* The public reports page, www.ctreports.com, which contained legacy assessment data back to 2000-01 was recently phased-out so it is no longer available.

** Beginning in the 2020 – 21 school year, this portal will be discontinued and all summative assessments delivered by the Cambium Assessment, Inc. will be reported on the Cambium AIRWays Reporting System.

***Beginning in the 2020 – 21 school year, this portal will be the only reporting portal for assessments delivered by Cambium Assessment, Inc.

CSDE Performance Office Data Analysis and Reporting Tools

Cambium Online Reporting System (ORS)**	ID/Password Required	District-level, school-level and teacher-level users	Student-level information for NGSS, CTAA, CTAS, Smarter Balanced summative and interims. Please see the ORS User Guide for more information.	• Score Reports: Provides score data for each Connecticut Comprehensive Assessment Program test. Users can compare score data between individual students and the school, district, or overall state average scores. ORS also provides student-level performance on claims and group-level performance by assessment target. • Reports & Files: Provides summary statistics (count and percentages) of students who tested in a selected subject and grade level. Enables users to download student data files containing test scores and demographic information.
College Board Reporting Portal	ID/Password Required	Roles are assigned to school staff by the district "Access Manager". "Detail" and "Summary" access available.	Student scores for all students with a valid score. Students who cancelled their scores and/or students with scores on hold are not included in this site. Average scores by school and district are also included.	• Student level scores include the percentile, the individual student score, and benchmark attainment. • Summary scores report means, percentage attaining benchmarks, as well as question level information and sub-scores. • Review the CT SAT School Day Reporting FAQ for further details.
LAS Links DRC Insight Portal	ID/Password Required	English learner District Administrator	Student-level LAS Links results	• Create reports, graphs, or data files • Conduct ad hoc data queries and analysis • Disaggregate on user-selected subgroup variables • Drill down from summaries to individual students • Print reports in PDF format or export to other software programs
