EMPLOYEE SECTION: Indicate with an X if this is your 1st or 2nd year of reemployment in any Subject Shortage Area or in a school located in a priority school district state wide. A retired member can work in a Subject Shortage Area, or at a school located in a Priority School District, for one school year and, with prior approval from the Connecticut Teachers' Retirement Board (CTRB), for a second school year with no limitation on earnings, no impact on the member's pension, and no requirement to reimburse the CTRB. The limits of one school year and two school years apply both cumulatively and in aggregate to the combination of all of a retired member's postretirement reemployment during their entire career, combining all work in all Subject Shortage Areas and in all schools located in all Priority School Districts into a single total. The limits do not apply individually or separately to postretirement reemployment in different Subject Shortage Areas, or in different schools located in the same Priority School District or in different Priority School Districts.

1st year **2nd year**

A retiree enrolled in the TRB health plan can remain in that plan, currently \$141 per month per person for full coverage (the TRB rates change on a calendar year basis). I elect to participate in the health plan during reemployment from the following: Please check one.

- CTRB Health Plan/"Stirling Plan"
- Plan from the employer I was at the time of retirement with TRB subsidy
- Plan from the reemploying employer without any TRB subsidy (if offered by the employer, but is not mandated under current law)
