BOARD OF PARDONS AND PAROLES
55 West Main Street - Waterbury, CT 06702

Notice to Inmate Population October 18, 2011 Board of Pardons and Paroles Procedures for Risk Reduction Earned Credit (RREC)

The Board of Pardons and Paroles will generally be handling changes in voted-to-parole and parole eligibility dates based on the application of RREC as follows:

Inmates who are already voted to parole will have case reviews when retroactive RREC are applied by the Department of Correction. Parole Board case reviews will occur on an incremental, phased-in basis after RREC is applied by DOC.

For inmates whose parole hearing is pending, credits will be calculated prior to the hearing. Regardless of 50% or 85% designation, going forward, parole eligibility dates will be calculated taking RREC into consideration.

Some inmates may have received RREC and are now past their parole eligibility date. The Parole Board will make every effort to hear those cases closest to eligibility prior to hearing those whose dates are farther out. No changes have been made in the content of the parole package we are required to gather for a parole hearing for the Board's review. We will not be going forward with cases without required document simply because a parole eligibility date may have changed due to RREC.

A handwritten signature in cursive script that reads "Erika Tindill".
