Executive Summary

The 2008 Consolidated Annual Performance and Evaluation Report (CAPER) summarizes activities undertaken, in the administration of the four programs described below, by Connecticut State agencies during the 2008-09 Program Year (PY) which began 7/1/2008 thru 6/30/2009.

Small Cities Community Development Block Grant Program (SC/CDBG)

The SC/CDBG Program assists smaller cities/towns across the state to address their affordable housing, community development and economic development needs. The SC/CDBG Program is administered by the State of Connecticut Department of Economic and Community Development (DECD).

HOME Investment Partnerships Program (HOME)

The HOME Program funds the acquisition, construction and rehabilitation of affordable housing around the state. The HOME Program is administered by the State of Connecticut Department of Economic and Community Development (DECD).

Emergency Shelter Grant Program (ESG)

The ESG Program provides funds to emergency shelters, transitional housing for the homeless, and essential social services both to assist the homeless and to prevent homelessness. The ESG Program is administered by the State of Connecticut Department of Social Services (DSS).

Housing Opportunities for Persons with AIDS Program (HOPWA)

The HOPWA Program aids not for profit organizations in meeting the housing and social service needs of persons with AIDS and HIV related illnesses and their families. The HOPWA Program is administered by the State of Connecticut Department of Social Services (DSS).

Each of these programs is funded by formula grants from the United States Department of Housing and Urban Development (HUD). The annual allocation amounts for the four programs for the 2008-09 Program Year are listed below.

Table 1: Program Resource Allocation for PY 2008-2009	
HOME Investment Partnerships (HOME)	\$ 12,045,404
Small Cities Community Development Block Grant (CDBG)	\$ 13,330,342
Emergency Shelter Grants (ESG)	\$ 1,155,155

To maintain eligibility to administer these programs, the State must periodically prepare and submit a series of documents for HUD approval. In addition to the CAPER, these documents include a five-year Consolidated Plan for Housing and Community Development (ConPlan) and annual one-year Action Plans. Descriptions for each of the documents required by HUD follows.

The ConPlan is a five-year strategic plan that describes the housing needs of low and moderate-income residents, examines the housing market, outlines strategies to meet the needs and lists all resources available to implement those strategies, and outlines goals, objectives and measures. The ConPlan sets a unified vision, long-term strategies and short-term action steps to meet priority needs. Included in the ConPlan is a Citizen Participation Plan which provides information about how to access Consolidated Plan documents and how to participate in the consolidated planning process through which these documents are developed.

The annual Action Plan is the yearly implementation plan for the five-year ConPlan that describes how the state will use the allocated funds for the four federal programs for a given Program Year.

The annual Action Plan also outlines the state's proposed accomplishments for the program year based on the performance measurement system presented in the 2005-09 ConPlan and HUD's Outcome Performance Measurement System for Community Planning and Development Formula Grant Programs.

The Consolidated Annual Performance and Evaluation Report (CAPER) is the annual report to HUD that details the progress the state has made in carrying out the ConPlan and the annual Action Plan. The CAPER describes resources made available, the investment of those resources, the amount and source of leveraged funds, the source and use of program income, geographic distribution and location of investments, the number of families and persons assisted and actions taken to affirmatively further fair housing. Performance Measures are also reported based on actual outcomes for proposed accomplishments that appeared in the corresponding program year Action Plan.

The 2005-09 ConPlan, subsequent annual Action Plans and CAPERS are available on the DECD web site at www.DECD.org.

I. Assessment of Progress toward Goals and Objectives

A. Five Year Consolidated Plan Goals and Objectives:

Outlined below is the State of Connecticut's Performance Measurement System as contained in the 2005-09 Consolidated Plan for Housing and Community Development.

The Performance Outcome Measurement System associated with the ConPlan includes goals, objectives, outcome measures and indicators (outputs). It has three overarching program objectives under which all SC/CDBG, HOME, ESG and HOPWA program activities, outcome indicators and measures will be grouped. They are as follows:

1. Encouraging Homeownership
 - Improve the ability of low and moderate-income residents to access homeownership opportunities.
2. Expanding the Supply of Quality Affordable Housing
 - Preserve and increase the supply of quality affordable housing available to all low and moderate-income households, and help identify and develop available resources to assist in the development of housing.
 - Improve the ability of low and moderate-income residents to access rental housing opportunities.
 - Assist in addressing the shelter, housing, and service needs of the homeless poor and others with special needs.
3. Revitalizing Communities
 - Provide communities with assistance to undertake economic development initiatives.
 - Provide assistance to help communities undertake community infrastructure, facility, and service projects affecting public health, safety and welfare.

These three objectives incorporate the statutory objectives for the SC/CDBG, HOME, ESG and HOPWA programs. Grouping the program activities in this way allows Connecticut to report on its progress toward meeting the overall objectives of the aforementioned programs in a simplified and comprehensive manner. In some cases, activities will fall under more than one program objective, depending upon the purpose/type of the program.

Each specific objective has been assigned one or more measures designed to clearly identify whether or not that objective has been met. (See Section XI "Performance Measurements" Goals & Objectives Matrix of the ConPlan for specific measures). As mentioned above, a goal will be considered successfully fulfilled if the majority of its associated specific objectives have been accomplished and, as such, the success or failure in meeting a goal's specific objectives acts as the metric for measuring the state's performance in meeting the plan's goals.

The ConPlan's overarching goals will be considered successfully fulfilled if the majority of their associated goals has been accomplished and, as such, the success or failure in meeting the goals associated with each overarching goal acts as the metric for measuring the state's performance in meeting the plan's overarching goals.

The statutory goals of the four programs will be considered successfully fulfilled if the overarching goals of the ConPlan have been accomplished and, as such, the success or failure in meeting the overarching goals of the plan acts as the metric for measuring the state's performance in meeting the statutory goals of the four programs.

A graphic illustration of the objective and goal linkages, and outcome measures and indicators is located in Section XI "Performance Measurements" Goals & Objectives Matrix of the ConPlan.

Development of Specific Objectives and Proposed Accomplishments

The specific objectives and proposed accomplishments described in Section IX "Strategic Plan" of the ConPlan were derived from a thorough review of the various needs within the state, a review of the resources available to address those needs, an assessment of the capacity of the state, local jurisdictions, housing authorities and private and not-for-profit organizations to meet those needs, and a thorough review of the state's historic achievements in meeting those needs in the past and the costs associated with those achievements.

Prioritization of Funding and Need

The ConPlan recognizes that the housing and community development needs of the state are many, while the resources to address these issues are limited. As such, this plan attempts to maximize all available state and federal resources by focusing the state's efforts.

Only those issues deemed to be a high priority to the state have been identified in this plan. All other issues are, by default, deemed to be a lower priority in terms of funding attention.

There are 12 goals outlined in the ConPlan. The goals, listed below, are presented in numeric order for the purpose of identification. Their position within this list does not denote a specific ranking – as all are considered of equal priority. These goals are as follows:

- Goal 1: Supportive Housing - Develop and implement strategies and solutions to address the problem of homelessness through the utilization of supportive housing.
- Goal 2: Home Ownership - Improve the ability of low and moderate-income residents to access home ownership opportunities.
- Goal 3: Rental Housing Supply - Preserve and increase the supply of quality affordable housing available to low and moderate-income households.
- Goal 4: Rental Housing Opportunities - Improve the ability of low and moderate-income residents to access rental housing opportunities.
- Goal 5: Affordable Housing Planning - Help identify and develop available resources to assist in the development of housing.
- Goal 6: Fair Housing - Empower upward mobility for low and moderate-income residents through fair housing.
- Goal 7: Homelessness - Address the shelter, housing and service needs of the homeless poor and others with special needs.
- Goal 8: Special Needs - Address the housing and service needs of those populations defined as having special needs:
 - Elderly and Frail Elderly
 - Persons with Disabilities
 - Persons with HIV/Aids and Their Families
 - Persons with Substance Abuse Issues
 - Persons Recently De-Incarcerated

- Goal 9: Lead Paint and Hazardous Materials - Support the removal of lead-based paint and other hazardous materials in existing housing.
- Goal 10: Public Housing Residents - Facilitate homeownership opportunities for public housing residents.
- Goal 11: Non-Housing: Economic Development - Provide communities with assistance to undertake economic development initiatives.
- Goal 12: Non-Housing: Infrastructure and Public Facilities - Provide assistance to undertake improvements to the community infrastructure, and construct or rehabilitate public facilities projects affecting public health, safety and welfare of low and moderate-income residents.

Objectives, Accomplishments and Measures

Each goal is followed by specific objectives (objectives are either specific actions to be taken or specific milestones to be achieved). A corresponding proposed accomplishment follows each of these objectives. The accomplishments are designed to serve as the metric that will gauge the performance of the state in meeting the objectives and ultimately the goal to which they relate.

Basis For Assigning Priority

Each objective and accomplishment also has a proposed funding source (or sources), a population and geographic target, and a priority rating. Each objective is supported by a brief discussion of the need/basis for assigning the priority and of obstacles to meeting underserved needs summarized from the Needs Assessment and Housing Market Analysis sections of the ConPlan.

Priority ratings were established after a thorough examination of Connecticut's housing and community development needs and the state's current and historical housing market. (See Needs Assessment and Housing Market Analysis sections of the ConPlan). Based on the state's review of all relevant and available data, specific issues were selected and run through an internal screening at the Departments of Economic and Community Development and Social Services. Issues chosen to be assigned high priority funding status within this plan were selected based on three overarching factors: (1) the issue's relative demonstrated need (as identified in the needs assessment), (2) the availability of other funds to address the need and (3) the eligibility criteria of each of the four federal programs governed by this plan.

High Priority Needs And Funding

As stated above, only those issues deemed to be a high priority to the state have been identified in the ConPlan. All other issues are, by default, deemed to be a lower priority in terms of federal funding attention.

This does not exclude the state from funding lower priority projects. The high priority designation serves to emphasize to the public, the areas in which the state will concentrate its efforts over the next five years, in terms of housing and community development. Further, it defines where the state will focus its usage of the federal funds accessed through the four state administered federal programs governed by this plan.

A proposed project that addresses a high priority need is not guaranteed funding based solely on the fact that it will address a high priority need. All projects funded by the state must be financially and logistically feasible as well as meet all of the eligibility criteria of the proposed funding source. When two or more projects are competing for funding dollars (all things being equal), the project addressing the high priority need will be given funding preference.

Note: for the purposes of this plan, "Other Funds" include all available state, federal or private funds other than those allocated to the state under the SC/CDBG, ESG, HOME and HOPWA programs.

B. HUD Outcome Performance Measurement System:

Outlined below is the HUD Outcome Performance Measurement System for Community Planning and Development Formula Grant Programs as contained in Federal Register/ Vol. 71, No. 44 dated March 7, 2006.

Objectives:

- I. **Suitable Living Environment:** in general, this objective relates to activities that are designed to benefit communities, families, or individuals by addressing issues in their living environment.
- II. **Decent Housing:** the activities that are typically found under this objective are designed to cover the wide range of housing possible under HOME, CDBG, HOPWA, or ESG. This objective focuses on housing programs where the purpose of the program is to meet individual family or community needs and not programs where housing is an element of a larger effort, since such programs would be more appropriately reported under Suitable Living Environment.
- III. **Creating Economic Opportunities:** this objective applies to the types of activities related to economic development, commercial revitalization, or job creation.

Outcomes:

- A. **Availability/Accessibility:** this outcome category applies to activities that make services, infrastructure, public services, public facilities, housing, or shelter available or accessible to low and moderate-income people, including persons with disabilities. In this category, accessibility refers not only to physical barriers, but also to making the affordable basics of daily living available and accessible to low and moderate-income people where they live.
- B. **Affordability:** this outcome category applies to activities that provide affordability in a variety of ways in the lives of low and moderate-income people. It can include the creation or maintenance of affordable housing, basic infrastructure hook-ups, or services such as transportation or day care.
- C. **Sustainability/Promoting Livable or Viable Communities:** this outcome applies to projects where the activity or activities are aimed at improving communities or neighborhoods, helping to make them livable or viable by providing benefit to persons of low and moderate-income or by removing or eliminating slums or blighted areas, through multiple activities or services that sustain communities or neighborhoods.

Output Indicators:

For each activity, applicants report on:

1. Amount of money leveraged (from other federal, state, local, and private sources) per activity;
2. Number of persons, households, units, or beds assisted, as appropriate;
3. Income levels of persons or households by: 30%, 50%, 60%, or 80% of area median income, per applicable program requirements. However, if a CDBG activity benefits a target area, that activity will show the total number of persons served and the percentage of low and moderate-income persons served. Note that this requirement

is not applicable for economic development activities awarding funding on a "made available basis;"

4. Race, ethnicity, and disability (for activities in programs that currently report these data elements)

Specific Indicators: As Applicable:

5. Public facility or infrastructure activities

F. 2007-08 Goals and Objectives Matrix: Proposed / Actual Accomplishments

The matrix that follows outlines the proposed 2008-09 accomplishments for all four programs. Each goal/objective is followed by a result and or explanation based on activity that took place during the program year. DECD has considered only new projects, those that were funded during the program year, towards meeting the proposed accomplishments. Each of these projects will need to be tracked and reported on until completion to ascertain the actual goals that are accomplished.

DECD has made progress towards meeting many of the goals and objectives contained in our 2005-09 ConPlan. We have begun addressing some of the needs behind the goals/objectives during the first four reporting years of our five-year planning document. For those proposed accomplishments where no activity was noted, most often it is because DECD did not receive applications for these activities.

B. Employment Outreach

To ensure that the DECD recipients of HOME and SC/CDBG funds provide equal opportunities in employment, contracting and the provision of services and benefits, DECD has incorporated requirements and guidelines pertaining to affirmative action, racial and economic integration and economic development opportunities for small, minority- and women-owned businesses in either the application or in the contract for financial assistance.

The dollar value of contracts using HOME funding provided to Minority- Owned Business Enterprises (MBE) was \$ 14,765,766 of which \$ 7,391,045 was awarded to firms owned by persons who are Asian/Pacific Islanders, \$5,940,567 was awarded to firms owned by persons who are Black Non- Hispanics and \$1,434,154 was awarded to firms owned by persons who are Hispanic Americans. The dollar value of contracts using HOME funding awarded to Women-Owned Business Enterprises (WBE) was \$3,840,998.

SC/CDBG recipients awarded a total of \$33,956,576 in contracts to prime contractors and sub-contractors. \$1,984,496 of the total was awarded to Women-Owned Business Enterprises (WBE) and a total of \$398,557 was awarded to Minority-Owned Business Enterprises (MBE), of which \$248,008 was awarded to firms owned by persons who are Black Americans, \$117,657 was awarded to firms owned by persons who are Hispanic Americans, \$946 was awarded to firms owned by persons who are Native Americans, \$18,767 was awarded to firms owned by persons who are Asian/Pacific and \$13,179 was awarded to firms owned by persons who are Portuguese. SC/CDBG recipients awarded a total of \$1,611,866 in contracts for Section 3 firms, of which, \$1,296,204 were prime contractors and \$315,662 were sub-contractors.

C. Nondiscrimination

DECD administers the HOME and SC/CDBG programs in a nondiscriminatory manner, in accordance with equal opportunity, affirmative action and fair housing requirements. Recipients of HOME and SC/CDBG funds for housing related activities are required to comply with the following civil rights laws and regulations:

- Title VI of the Civil Rights Act of 1964;
- Title VIII of the Civil Rights Act of 1968, as amended;
- The Americans with Disabilities Act;
- Executive Orders 11063, 11246, and 12892;
- Section 3 of the Housing and Urban Development Act of 1968, as amended;
- Minority Small Business Enterprises – good faith effort, 24CFR 85.36(e)
- The Age Discrimination Act of 1975, as amended;
- Section 104(b) of Title I of the Housing and Community Development Act of 1974, as amended;
- Section 109 of Title I of the Housing and Community Development Act of 1974, as amended;

D. Applicable State Requirements

The following may be applicable to both the HOME and SC/CDBG programs depending on the activities undertaken:

- Regulations of Connecticut State Agencies, Sections 8-37ee-300 through 8-37ee-314, and the Affirmative Fair Housing Marketing and Selection Procedures Manual, under Section 8-37ee-1 through 8-37ee-17;
- Connecticut General Statutes (CGS) Sections 8-37t, 8-37-bb and 8-37dd promoting racial and economic integration;

- 24 CFR Part 85.36 regarding good faith efforts to hire minority and women owned businesses.

The following are applicable to only the HOME program:

- Connecticut Contract Compliance Regulations codified at Section 46a-68j-21 through 43 of the Regulations of Connecticut State Agencies, which establish a procedure for awarding all contracts covered by Sections 4a-60 and 46a-71 of the CGS; and
- CGS Section 32-9e, Set-aside program for small-, minority- and women-owned firms.

E. Program Assurances

Recipients must also comply with program assurances that they will affirmatively further fair housing in all their programs. Recipients must comply with the requirements of 24 CFR 91.25(a) (1), 24 CFR 91.325(a) (1), 24 CFR 91.425(a) (1) and 24 CFR 570.487(b). Each recipient is given a Fair Housing Handbook developed by DECD. The handbook contains information on state and federal fair housing laws, housing discrimination complaint procedures, model fair housing policies and guidelines, duty to affirmatively further fair housing, an overview of disability discrimination in housing, trends in fair housing, pertinent legal decisions, the State Analysis of Impediments to Fair Housing and a resource directory.

Accordingly, recipients of HOME and SC/CDBG funds, in compliance with their Certification to Affirmatively Further Fair Housing, are required to submit to DECD for review and approval, a Fair Housing Action Plan. The plan submitted must be consistent with the DECD's Fair Housing Action Plan Implementation Guidelines. All recipients submitted these plans as a condition of funding.

The promotion and enforcement of equal opportunity and affirmative action laws and regulations in housing, economic development, and employment is a standard requirement of all SC/CDBG proposals. During the application review process, applications are reviewed for compliance with Title VI and for Fair Housing/Equal Opportunity. In the application evaluation system there is a separate evaluation criteria for Fair Housing and Equal Opportunity for which points are awarded.

F. Continuing Efforts to Affirmatively Further Fair Housing

The DECD continues to provide the most recent statewide Analysis of Impediments (AI) to Fair Housing Choice on our website at www.decd.org. What follows is a review of progress made on the previous year's goals as outlined in the State AI and additional actions that will be taken in the coming year.

Objective 1 – Work with financial institutions and other organizations and municipalities to develop more programs that encourage minority homeownership.

Progress:

This continues to be done by DECD through the HOME ADDI program. In addition, through the State Housing Trust Fund, DECD encourages local non-profit lenders to provide funding to non-profits who develop housing for this purpose.

Objective 2 – Increasing supply of affordable housing:

Progress:

(a) Fully fund the Housing Trust Fund (HTF): For FY 2008-2009 DECD provided \$4,777,000 assisting 73 units under the program HTF.

(b) Better integrate affordable housing with economic development, transportation, social services and public facilities.

DECD has established review criteria for housing applications which incorporate Responsible Growth criteria. These criteria include:

- Compliance with the state plan of conservation and development;
- Transit oriented development;
- Encouragement of mixed use development;
- Natural site characteristics;
- Re-use of existing infrastructure;
- Sustainable development.

Objective 3 - Establish and maintain a statewide list of accessible apartments.

Progress:

Pursuant to PA 05-239, the DECD has established a statewide electronic database of information on the availability of dwelling units in Connecticut that are accessible to or adaptable for persons with disabilities called CTHousingSearch.org. In addition, this database includes all rental units that are federally supported, state-supported, and deed restricted as well as privately owned rental units. DECD continues to conduct outreach to landlords and organizations in order to continue to build up the database.

Objective 4 (b) – Continue the fair housing training programs for both staff and SC/CDBG, HOME recipients.

Progress:

- Provided one three-hour training for SC/CDBG recipients and applicants on how to conduct and complete an Analysis of Impediments to Fair Housing including information on what should be included, how to evaluate information, suggestions for information to be included in a Fair Housing Action Plan, and how to increase and sustain the town's commitment to the action steps.
- As part of the small cities CDBG application workshop, provided one three-hour training for SC/CDBG applicants on the Fair Housing/ Civil Rights section of the application and the rating criteria also provided one one-hour training on how to conduct an ADA self-evaluation and create a transition plan.
- Provided one three-hour training session to providers operating permanent housing through the Balance of State Continuum of Care member agencies on Affirmatively Furthering Fair Housing. (DMHAS and DSS service providers).

- Provided one three-hour training session to DECD and CHFA staff managing the state housing portfolio on the fair housing and civil rights sections of the State Housing Manual.

Objective 4 (d) - Discuss and distribute fair housing materials to all state employees that have direct contact with the public in any state agency which addresses housing and community development/community development finance, or social services.

Progress:

- DECD has developed a database of all state agencies that address housing and community development finance or social services. The Connecticut Fair Housing Center developed and maintained a fair housing contact person database of all state agencies that address housing and community development finance or social services.
- DECD's Fair Housing and Civil Rights compliance staff, in consultation with the Center, completely revised and updated the Fair Housing Handbook and the Fair Housing Compliance Handbook for the SC/CDBG Program.
- DECD's fair housing and civil rights compliance staff, in consultation with the Center, revised and updated the Fair Housing/Civil Rights section of the SC/CDBG application and rating criteria. Rating criteria now includes bonus points for those towns that update their Section 504 Self-Evaluation and Transition Plans. Fair Housing Action Plans are always required with the applications. Applicants are rated on the progress made on the action steps for the previous three years.
- DECD compliance staff in consultation with the Center revised and updated the Fair Housing/ Civil Rights section of the State Housing Manual for state funded programs including Elderly, Congregate and Affordable Housing programs among others.

Objective 5 – Fair Housing outreach and education activities

Progress - through the provision of funding to the CT Fair Housing Center, the Center:

- Assisted 65 Connecticut residents who received information on the fair housing laws either orally or in writing.
- Assisted the organization working with homeless Connecticut residents who received fair housing information.
- Conducted outreach sessions for organizations that assist the elderly and disabled to educate them on their rights.
- Conducted outreach session for organizations that assist families with children and others looking for housing to educate them and their clients on the fair housing laws.
- Educated homeowners and first-time homebuyers on fair housing and fair lending laws in an effort to prevent predatory lending and racial or ethnic steering.

Objective 6 - Monitoring and enforcement of fair housing laws and policies.

Progress:

DECD received funding through the state legislature to provide financial assistance to the Connecticut Fair Housing Center (FHC). The financial assistance allowed FHC to remain fully operational at its previous level of service. As part of its contract for service, the FHC monitored and evaluated governmental-insured loan programs, insurance companies, tested and investigated real estate agents and housing developments as indicated above. DECD monitored FHC for compliance with stated goals outlined in the contract with DECD. Through the provision of DECD funds to the FHC, the following activities were accomplished:

- FHC performed intakes and provided fair housing advice to 50 Connecticut Households;
- FHC investigated 37 discrimination complaints;
- FHC helped residents with disabilities to request reasonable accommodations and reasonable modifications without litigation or court action;
- FHC performed 13 Fair Housing tests to investigate complaints of discrimination;
- FHC tested the housing practices of 15 Connecticut real estate agents to determine if racial and ethnic steering is present in the home sales sector;
- FHC investigated 7 suburban and 3 urban federal Low-Income Housing Tax Credit properties to determine if they are discriminating against people of color;
- FHC provided assistance to households by filing complaints, litigating complaints in administrative agencies, state or federal court, negotiating settlements, holding hearings, and representing the victims of housing discrimination to obtain relief for victimized households in the form of an apartment or monetary damages, costs and attorney's fees from the entity who discriminated against them.;
- FHC provided assistance to house holds who are delinquent on their mortgages or in foreclosure as the result of predatory lending practices with the goal of keeping people in their homes or getting them access to appropriate affordable housing.;

In monitoring of CDBG recipients, DECD monitored 19 Small Cities CDBG projects between July 2008 – June 2009. Considering the nature and number of findings per grantee, the overall performance was assessed to be good.

The Connecticut State Legislature reaffirmed its commitment to civil rights and fair housing by authorizing \$750,000 for the biennium (09-11) to the Fair Housing Center to continue its work.

J. Program Objectives

Statutory Requirements of Section 104(e)

Please note the objectives listed here are separate and non-relating to the Goals and Objectives contained in the Consolidated Plan.

Assessment of the Relationship of the Use of Funds to State's Objectives

DECD has established two program priority objectives and nine secondary objectives for the SC/CDBG Program. The program priority objectives are the creation or preservation of affordable housing and the enhancement of employment opportunities for low and moderate-income persons. These program priority objectives have been in place since the state began administering the program in 1982. The nine additional objectives range from housing issues to coordinated strategies for neighborhood revitalization.

Program Priority Objectives:

Affordable Housing

Affordable housing continues to be the highest priority for DECD's SC/CDBG program. The SC/CDBG program has defined Affordable Housing as that housing which meets the Section 8, Fair Market Rent (FMR) limits after rehabilitation or construction. Beginning with FFY '92, DECD now requires that FMRs be applied for a minimum of five years after unit completion. The following is a breakdown of funding dedicated to Affordable Housing activities.

Table 40: SC/CDBG Program Summary of Affordable Housing Activity

Economic Development

In contrast to affordable housing, funding for economic development activities was at a very low level from FFY '85 – FFY '92. Though DECD's rating and ranking system continued to give priority to economic development projects, very few applications containing such activities had been submitted for funding.

To increase economic development activities, DECD created an intensive SC/CDBG economic development technical assistance program and an economic development set-aside. Although the result of DECD's effort was a dramatic increase in both the amounts of SC/CDBG funds requested for economic development activities as well as the number of activities funded, the economic

development set-aside was eliminated for FFY '97 and FFY '98 but included again for FFY '99 and FFY '00. The set-aside was again eliminated in 2001 and has not been re-established.

In addition, training has been conducted specifically on Economic Development (ED). This training was for DECD staff as well as applicants it included an updated ED handbook, review of requirements and how to submit an ED application. Following is a breakdown of funding dedicated to Economic Development activities.

Table 41: SC/CDBG Program Summary of Economic Development Activity

Program Secondary Objectives:

Shelter for the Homeless

Shelter for the homeless has been identified as statewide priority. In addition to SC/CDBG funding, there are both state and federal programs to assist homeless shelters. Though shelters for the homeless remain a program objective, the establishment of the ESG program has greatly reduced the requests of SC/CDBG funds to be used for this purpose.

Revitalization of Deteriorated Residential and /or Business Districts

The revitalization of deteriorated residential and/or business districts has been identified as a priority for DECD under neighborhood revitalization strategies in DECD's 1999 Annual Action Plan. Priority is given to SC/CDBG proposals, which demonstrate a coordinated effort to revitalize such districts.

Leveraging of non-SC/CDBG Funds

The leveraging of non-SC/CDBG funds is taken into consideration under the application evaluation system under the evaluation criteria of "project feasibility". The leveraging of non-SC/CDBG funds results in higher application scores and higher funding priority. Once projects are approved for funding this information is traced through quarterly reports.

Provision of Housing

SC/CDBG applications that include the provision of housing in proximity to jobs and community facilities receive greater community impact scores and thus have a higher funding priority.

Enforcement of Housing and Health Codes

DECD's SC/CDBG program has adopted the Section 8 Housing Quality Standards as the minimum standard for all housing rehabilitation activities funded through this program. In addition, all grantees are required to meet local health and housing codes. Code enforcement programs are also encouraged as long as they meet HUD requirements concerning area-wide low and moderate-income benefit.

Equal Opportunity and Affirmative Action

The promotion and enforcement of equal opportunity and affirmative action laws and regulations in housing, economic development, and employment is a standard requirement of all SC/CDBG proposals. During the application review process applications are reviewed for compliance with Title VI and for Fair Housing/Equal Opportunity. In the application evaluation system there is a separate evaluation criteria for Fair Housing and Equal Opportunity for which points are awarded.

Promotion of Land Use

The promotion of land use policies that encourage equal opportunity in housing, economic development, and employment. The State has passed legislation easing the planning and zoning burdens for projects proposing to create affordable housing in zoning restrictive communities. The SC/CDBG program encourages such programs and applications to receive extra points under the Community Impact and Fair Housing/Equal Opportunity categories.

Promotion of Community Facilities

The promotion of community facilities as part of a neighborhood revitalization effort is a key SC/CDBG program component as evidenced by the high percent of such facilities funded each year.

Promotion of Coordinated Strategies to Meet the Needs of Connecticut Communities

DECD continues to fund applications for neighborhood revitalization and public facility projects through the current rating and ranking system. Each applicant for funding is required to provide information in the application pertaining to project need in the community and the impact of the project on the community. The proposed applications activities are reviewed in light of the information provided.

K. Benefit To L.M.I. Persons

Evaluation of the Extent to Which the Program Benefited Low and Moderate Income Persons:

The figures below are given to document the extent to which DECD's SC/CDBG funds have benefited low and moderate-income persons. This information clearly documents that the vast majority of SC/CDBG funds benefit low and moderate-income persons.

V. ESG Program Requirements

A. State Summary Report SFY 2009

1. Grantee and Community Profile

The Department of Social Services (DSS) is complying with the federal reporting requirements and submits its Annual Report for the period 07/01/08 - 06/30/09.

As a lead agency for the provision of emergency shelter services and multi- family or single room residency program to individuals and/or families who are homeless, DSS administers Connecticut's Emergency Shelter Grant (ESG) Program.

DSS works collaboratively with the Connecticut Coalition to End Homelessness (CCEH) and the Connecticut Housing Coalition (CHC). Through DSS contracts, both entities provide Technical Assistance and Training (TA & T) to all service providers. DSS is able to meet its goal of providing quality supportive housing to homeless people and their families through its partnership with CCEH, CHC and the local service providers.

In administering its \$5.4 billion dollar agency budget, DSS allocated Federal and State funds for a combined total of \$12,245,305 for the provision of housing assistance and supportive services to homeless people.

During the past twelve (12) months, twenty four (24) of the Department's forty (40) non-profit organizations received funding from the FFY'09 ESG Program for program operations, essential services, staff, and homeless prevention. The ESG total allocated for DSS equals \$1,155,155. DSS did not utilize any ESG funding for agency administration.

Most state contractors provided a core of services, which include, but are not limited to the following:

- Advocacy;
- Intake, needs assessment and case management services;
- Educational & vocational services;
- Health/Mental health Services;
- Homeless prevention;
- Information & Referrals;
- Shelter and housing assistance;
- Substance abuse counseling;
- Transportation / provision of bus tokens;
- Outreach; and
- Workshops on life skills, budgeting, parenting skills, nutrition, etc.

Other related services provided by certain service providers include health care, consumable supplies, food and meal services, employment assistance, client support and child care.

2. Formula Program Accomplishments

DSS through its contractual agreements with these private agencies provided shelter and support services to 13,067 individual clients and their families during fiscal year 2008-2009. 9.43% of 13,067 clients or 1232 clients received housing assistance and support services under the ESG grants. *It should also be noted that ESG funded providers assisted 9,902 individual and family clients.* Table 47: ESG Summary of Race/Ethnicity of Clients Served shows a breakdown on the race/ethnicity of the above population served.

The purpose of using this funding is to enable all residents achieve greater self-sufficiency, stabilize their environment and to assist them in moving into permanent housing.

3. Goals and Objectives

Goal 1, Objective 1: The number of permanent supportive housing opportunities is made available to homeless households or those at risk of becoming homeless, particularly those with special needs by providing financing for renovation of existing buildings.

Goal 7, Objective 1: Homeless prevention services are expanded by utilizing the Beyond Shelter Programs which provide coordination services to newly housed families and their landlords in order to prevent another cycle of homelessness.

B. Annual Performance Report

ESG ANNUAL PERFORMANCE REPORT

CONTRACTOR: Area Congregations Together, Inc.-Spooner House

CONTRACT NUMBER: 037ACT-ESS-18/1808DSS3701BE

ESG SHARE OF CONTRACT: \$35,482

BUDGET PERIOD: 07/01/08 – 06/30/09

DESCRIPTION OF FUNDED SERVICES:

Area Congregations Together (ACT) was established in 1979 by a group of religious leaders and lay people to help address existing gaps in the social service network in the Naugatuck Valley. Its mission is to help people help themselves. ACT is a non-profit organization that provides food, shelter, and support services to those in need. Among ACT's programs is The Spooner House, located in Shelton, a 36-bed shelter for homeless men, women, and children. The shelter is open 24 hours a day, every day of the year.

The program at Spooner House is one of the most comprehensive in the State of Connecticut. It not only provides a bed to sleep in, but also is more of a transitional facility, providing each resident with case management services that address individual needs and issues, other than just a place to sleep. ACT's mission is all-inclusive, with its main purpose to help people help themselves.

ACT provides case management services to all adults housed at the Spooner House, an action plan is developed with the resident and weekly progress meetings help to dictate next steps and assist with prioritizing goals and steps to encourage positive results. Monthly resident meetings, facilitated by our case manager allow for healthy group discussion, and support building. This program year ACT has provided financial literacy workshops and training, through the "My Money Program", an educational program for new parents called "Mommy & Me" which encourages healthy and educational play, preventive health care, discipline and nutrition and other services. ACT continues to work very closely with the social work staff of the VNA of SCC, to assist with supports to our chronically ill and/or homeless to facilitate best case outcomes for our residents.

NUMBER OF CLIENTS SERVED (unduplicated count): 251 persons

ADDITIONAL COMMENTS: ACT continues to utilize volunteer support on a daily basis. With the increasing budget constraints, and the rising costs associated with day to operations: utilities, employee benefits (to name a few) we regularly develop creative responses to meet needs of our residents, improve services and delivery, and to sustain any available resources.

This is truly one of the most challenging aspects of providing emergency shelter services.

NUMBER OF CLIENTS SERVED (unduplicated count):

Emergency Shelter Services were provided to 490 unduplicated clients.

ADDITIONAL COMMENTS:

The Clinical Case Manager position is a part time, 20 hour per week position. The homeless men in the shelter could be better served by a full time Clinical Case Manager

The Open Hearth Emergency Shelter limits the length of stay in the shelter to two weeks. As a result, there is insufficient time for the Clinical Case Manager to help the homeless residents obtain permanent housing or supportive housing. The process of locating and securing permanent, affordable housing can take several months.

CONTRACT NUMBER: 08ARC-ESS-11/ 08DSS3701RW

ESG SHARE OF CONTRACT: \$34,157

BUDGET PERIOD: 07/01/08 – 06/30/09

DESCRIPTION OF FUNDED SERVICES:

The American Red Cross Family Shelter consists of four 2-family houses in a residential area. Each building has two duplex apartments with 2 bedrooms, 2 baths, a living room & kitchen. One of the units has been converted into case management office space for program administration and staff. We usually place one family in each of the seven units except for rarer cases when we might house two small families with a single mom and one small child each. Therefore we are able to shelter 8 families but unusually are full with seven.

Our unique shelter structure gives families privacy and allows them to maintain a sense of family during a very fragile time. Families do their own cooking and can sit down to meals as a family. The area is well landscaped, has community laundry facilities in one of the basements, and all apartments have local phone service. Overall, our shelter apartments offer a comfortable and peaceful atmosphere that is conducive to the families' need to regroup, to recover from the crisis of becoming homeless.

The target population for our shelter program is homeless families with dependent children. Many of our client referrals come from local and state organizations including DSS, DCF, local school systems, local towns, 2-1-1, Middlesex Hospital and the Community Health Center. Our case management staff help clients secure daycare services, state assistance, substance abuse and mental health services, employment resources, and access to public housing.

NUMBER OF CLIENTS SERVED (unduplicated count): 102

ADDITIONAL COMMENTS: While the Shelter continues to operate at full capacity, the longer length of time that families are staying with us reduces the overall number of people served in the year.

DESCRIPTION OF FUNDED SERVICES:

We are a 40 bed shelter with ten women's beds and thirty men's beds. We provide a safe place to sleep, clean linens and 3 meals a day seven days a week. The goal of our shelter is to provide the basic necessities while the person gets back on their feet. MACC Charities runs a "damp" shelter meaning that people are expected to be clean and sober when they present at the shelter and be ready to work toward realistic goals about treatment work and housing. In times of extreme heat or cold this policy can be waived so that no one comes to any harm. We supply free clothing for those guests in need. Our guests have accessed the services of the local DSS office for medical insurance, food stamp qualification, access to eye care and access to state rental deposit guarantee program when appropriate

Case management is offered to each guest at the shelter. This includes but is not restricted to, needs assessment, crisis intervention, goal planning, monitoring, and encouraging guest's progress. Individual assistance plans are created with the guest who stays more than 2 nights and they are monitored carefully. Parts of the case management work are being shared by the floor manager's since they are the people who spend the most time with the shelter guests. Some of the best input from the guests is given at the entry and exit time of the shelter each day. We want our guests to have open access for case management as needed. For shelter guests seeking employment, treatment or housing there is telephone access and tokens or day passes are given for travel needs when available.

Our shelter continues to have access to a mental health clinician at least 18 hours a week through Genesis. This provides timely and effective assessment and treatment of our guests' mental health issues. There can not be enough said of the benefit of a clinician on site to assess the mental health needs of the guests. Weekly meetings are held with the Shelter staff to share information about mental health treatment and to discuss the needs of the guests at the shelter. Information continues to be shared with the guests about mental health issues.

ADDITIONAL COMMENTS:

Over the last year there were 9,502 bed nights supplied and an additional 394 bed nights were tied up with people who were "no-shows" or were on a ban. The shelter continues to provide case management services and has tried very hard to have the clients do "their part" in the process. We are working hard as a shelter to provide direction to people that allows them to "do for themselves" what they are capable of and to avoid "enabling" someone who continues to make the same life choices. The bed nights decreased slightly over the past year although the clients served is always well over our contractual obligation.

DESCRIPTION OF FUNDED SERVICES:

Harmony House provides shelter for 16 homeless mothers and their children 24 hours a day, seven days a week. The residents remain in the home for an average of 60-90 days. While the families are in the home they are actively working on service plan goals. The goal of the program is to empower the women by providing them with the skills and resources to maintain more stable life and environment for their family.

This home for women and children clearly meets the national CDBG objective to serve low-income families, as all of the women residents meet the eligibility requirements. We currently require proof of all forms of income at intake to ensure this, including state support and paycheck stubs. The home serves a limited clientele, since only women with children are allowed to reside in the home.

Harmony House is staffed with a Director, Direct Care Workers and an FCA agency Program Director who supervises the Director and provides oversight to the program. The Director is on-call 24 hours a day and is responsible for the daily management of the home and residents. The Workers are responsible to monitor the operation of the home during their shift, provide supportive help to the residents, and maintain client files and daily documentation. The residents also receive a great amount of supportive, case management and aftercare services. Individualized treatment plans have been attained by 95% of the residents and 75% of the residents attained permanent housing. We work closely with other area social service agencies such as, WIC, DSS, vocational training, Amos House, parent aides and TBICO in order to eliminate duplication of services.

ADDITIONAL COMMENTS:

FCA has recently had a reduction in funding from our local United from \$28,750 to \$14,554 per year, this has required us to look at making some fiscal changes to alleviate this situation. We will most likely have to increase the rent for moms and possibly cut some staffing.

There is a Shelter Services Coordinator on staff to assist residents with any concerns, from the search for permanent housing to registering their children in school. Residents are assisted with housing searches, obtaining furniture, enrolling children in Head Start and signing up for other benefits such as the WIC program. There is a group of Foster Grandparents who visit the shelter each day to provide role models for young parents and to lend a sympathetic ear to anyone in need. There is also a Birth to Three parenting class at the shelter. Clients attend weekly residents' meeting to discuss any issues concerning shelter life. In collaboration with the Connecticut Department of Mental Health and Addiction Services, a mental health case manager visits the shelter weekly.

The primary objective of the shelter is to provide emergency housing and food on a 24 hour-per-day basis. Shelter users primarily come from towns in New London and Windham Counties. Personal health items are provided as well as necessary clothing to enable clients to maintain basic personal hygiene. There are laundry facilities at the shelter. The shelter is 100% accessible.

4. Grant Selection: Continuing
5. Grantee and Community Profile

As a lead agency for the provision of housing assistance and supportive services to Persons with AIDS and their families, the State of Connecticut Department of Social Services (DSS) administers Connecticut's HOPWA formula grant for the balance of state.

DSS works collaboratively with the CT AIDS Resource Coalition (CARC) that receives a DSS contract to provide technical assistance to all services providers and to perform an annual "Standards of Care" Review, a coordinated effort between DSS staff representatives and the staff of CARC. With the partnership of CARC and the local providers, DSS is able to meet its goal of providing quality supportive housing to persons with HIV/AIDS in the State of Connecticut.

In administering its \$5.4 billion dollar agency budget, DSS allocated a total of \$5,497,326 Federal and State funds for the provision of housing assistance and supportive services to persons with HIV/AIDS and their families

In FFY 2008 Department of Social Services received \$263,000 in Federal Housing Opportunities for Persons with AIDS (HOPWA) funds for the program year, which covered the time period from July 1, 2008 to June 30, 2009. It is a "balance of state" program that served 35 persons with HIV/AIDS and their families through agreements between DSS and two non-profit organizations located in the Eastern Connecticut.

6. Formula Program Accomplishments

DSS and CARC carried out the following activities during the State Fiscal Year 2009:

- Two service providers located in the Eastern Connecticut provide HOPWA funded housing assistance services.
- They operated scattered-site apartments and community residences with a range of supportive services.
- In SFY 2009, thirty five (35) persons living with HIV/AIDS received housing assistance.

- During the reporting period, DSS and its subcontractors provided tenant-based rental assistance to 11 households and facility-based housing assistance to 17 households.

7. Program Partners

The following non-profit organizations are located in the Eastern Connecticut:

7a. Alliance for Living

- Sandra Brindamour, Executive Director
- Alliance.for.living@snet.net
- 154 Broad Street, New London, CT. 06320
- (860) 447-0884 and Fax # (860) 447-3226
- www.allianceforliving.org
- Total HOPWA subcontract amount: \$92,635
- Is the contractor:
 - a non-profit organization? – Yes
 - a faith-based organization? - No

7b. Perception Programs

- Linda Mastrianni, Executive Director
- 1003 Main Street, Willimantic, CT 06226
- (860) 450-7122 and Fax # (860) 450-7127
- www.perceptionprograms.org
- Total HOPWA subcontract amount: \$168,905
- Is the contractor:
 - a non-profit organization? – Yes
 - a faith-based organization? - No

DSS allocated funds to the two (2) agencies that fall into “*balance of state*” for rental assistance, case management, life management, operation costs, administration cost and daily support services.

7c. Waiting list

Organizations do maintain a waiting list. This is in response to a community/state-wide need that outstrips demand for appropriate housing for this HIV/AIDS homeless population. When applications are received, the project sponsors’ staff set up a two-step interview process.

The first interview is between the staff and the potential resident. This allows staff to assess the potential resident through a wide range of questions covering drug/alcohol history, family history, medical and psychological issues, financial status, etc. This interview is done with two staff to ensure the agency get multiple viewpoints on the prospective resident’s answers.

The second interview is between the resident and the current residents of the house.

This is more of a discussion between potential resident and current residents than anything else. The discussion gives both sides a chance to know each other and get a sense if this is the right “fit” for both new resident and current residents. After the prospective resident leaves, a poll is taken among the residents to see whether approval is warranted. The vote does not have to be unanimous, but simply a majority vote. This vote is then compared to staff’s assessment to make sure both side (staff/resident) are in agreement.

If the potential resident is accepted, an acceptance letter is sent out to their agency/location, notifying them of acceptance. Once accepted, their name is placed on the waiting list. If a person is not accepted, a letter of denial is sent to the person and/or organization giving reasons for the denial. Depending on the circumstances of the individual, an option to re-apply may be extended. Given the number of interviews the agency will conduct, the waiting list is then updated every few weeks. Occasionally, names are taken off the list as their life circumstances change and they move or find other appropriate housing opportunities.

Goal 1, Objective 1:

Each subcontractor, who also provides supportive AIDS housing, is expected to provide an acceptable level of quality support services, in addition to an acceptable occupancy rate in their housing program. The level of acceptability for DSS is set by the outcome measures, which vary from 80% to 100%.

Each program is thoroughly audited once a year by an outside contractor hired by CARC. This half- day audit is comprised of 22 standards covering Health and Safety, Client Intake and Services, Administration, Occupancy Rates, Confidentiality, Case Management Services. A score of 80% or higher is considered a passing score.

The SFY 2008 evaluation was completed. The Alliance for Living earned a score of 97% and the Perception Programs/Omega also earned a score of 99.6%.

Goal 8, Objective 1, 2 & 3:

DSS encourages programs that fall into “balance of state”, to seek additional federal funding for loss of funds due to Federal cuts to Ryan White.

DSS and CARC participated in AIDS LIFE Campaign which was successful in securing \$5.7 million dollars in the two year state budget to help offset the federal cuts in Ryan White funding to Connecticut

Additionally, \$750,000 was secured in new state funding for each year of the two year state budget which allowed for 54 new units of scattered site housing to be created; thirteen of these units are located with Alliance For Living.

The HOPWA programs served 35 people living with HIV/AIDS.

DSS is a partner in the Reading Home Campaign, a network of state and local providers that has been created to increase supportive housing throughout Connecticut. The Reading Home Campaign utilizes an on-going evaluation and self-assessment model to revise its goals.

In addition, DSS has worked in collaboration with DMHAS and Corporation for Supportive Housing to create a quality assurance monitoring and review process for all

state-funded supportive housing programs in Connecticut that will be implemented during FY 2007-08.

Barriers:

- It is difficult to provide the necessary level of services to person with multiple diagnoses (e.g., mental health).
- Finding units that fall within the fair market values established by HUD has, and will continue to be, a challenge. Lack of affordable housing due to a steady increase in housing and utility costs.
- The economic downturn and foreclosure crisis have also had adverse effects on both affordability and availability.
- Accessibility to reasonable employment opportunities due to economy.
- Inability to find and maintain employment

Trends of services:

- Establishing a database of apartment search web sites and craigslist for apartment housing leads
- Existing landlords keep in constant contact with program to report any vacancies or anticipated vacancies.
- The shift in Ryan White to a medical model has an impact on the support services being offered to clients in HOPWA funded housing. In some cases, an agency would use 100% of HOPWA funds on rental subsidies and provide support services through case managers funded by Ryan White but this is no longer a viable option.
- A holistic approach to helping the clients with support services. Coordination with case managers, medical staff and monthly house meetings help the client achieve and/or maintain some level of self sufficiency.

B. Consolidated Annual Performance and Evaluation Report

Housing Opportunities for Persons With AIDS (HOPWA) Program

Consolidated Annual Performance and Evaluation Report (CAPER) Measuring Performance Outcomes

OMB Number 2506-0133 (Expiration Date: 12/31/2010)

The HOPWA CAPER report for formula grantees provides annual information on program accomplishments in meeting the program's performance outcome measure: maintain housing stability; improve access to care; and reduce the risk of homelessness for low-income persons and their families living with HIV/AIDS. This information is also covered under the Consolidated Plan Management Process (CPMP) report and includes Narrative Responses and Performance Charts required under the Consolidated Planning Regulations. The public reporting burden for the collection of information is estimated to average 45 hours per manual response, or less if an automated data collection and retrieval system is in use, along with 68 hours for record keeping, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Grantees are required to report on the activities undertaken only, thus there may be components of these reporting requirements that may not be applicable. This agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless that collection displays a valid OMB control number.

Overview. The Consolidated Annual Performance and Evaluation Report (CAPER) provides annual performance reporting on client outputs and outcomes that enables an assessment of grantee performance in achieving the housing stability outcome measure. The CAPER, in conjunction with the Integrated Disbursement Information System (IDIS), fulfills statutory and regulatory program reporting requirements and provides the grantee and HUD with the necessary information to assess the overall program performance and accomplishments against planned goals and objectives

HOPWA formula grantees are required to submit a CAPER, and complete annual performance information for all activities undertaken during each program year in the IDIS, demonstrating coordination with other Consolidated Plan resources. HUD uses the CAPER and IDIS data to obtain essential information on grant activities, project sponsors, housing sites, units and households, and beneficiaries (which includes racial and ethnic data on program participants). The Consolidated Plan Management Process tool (CPMP) provides an optional tool to integrate the reporting of HOPWA specific activities with other planning and reporting on Consolidated Plan activities.

The revisions contained within this edition are designed to accomplish the following: (1) provide for an assessment of unmet need; (2) streamline reporting sources and uses of leveraged resources; (3) differentiate client outcomes for temporary/short-term and permanent facility-based assistance; (4) clarify indicators for short-term efforts and reducing the risk of homelessness; and (5) clarify indicators for Access to Care and Support for this special needs population. In addition, grantees are requested to comply with the Federal Funding Accountability and Transparency Act 2006 (Public Law 109-282) which requires federal grant recipients to provide general information for all entities (including subrecipients) receiving \$25,000+ in federal funds.

Continued Use Periods. Grantees that use HOPWA funds for new construction, acquisition, or substantial rehabilitation are required to operate their facilities for ten years for HOPWA-eligible beneficiaries. For the years in which grantees do not receive and expend HOPWA funding for these activities, the grantee must submit an Annual Certification of Continued Project Operation throughout the required use periods. This certification is included in Part 5 in CAPER.

Final Assembly of Report. After the entire report is assembled, please number each page sequentially.

Filing Requirements. Within 90 days of the completion of each program year, grantees must submit their completed CAPER to the CPD Director in the grantee's State or Local HUD Field Office, and to the HOPWA Program Office: Office of HIV/AIDS Housing, Room 7212, U.S. Department of Housing and Urban Development, 451 Seventh Street, SW, Washington, D.C. 20410.

Definitions: Facility-Based Housing Assistance: All HOPWA housing expenditures which provide support to facilities, including community

residences, SRO dwellings, short-term or transitional facilities, project-based units, master leased units, scattered site units leased by the organization, and other housing facilities approved by HUD.

Grassroots Organization: An organization headquartered in the local community where it provides services; has a social services budget of \$300,000 or less annually; and six or fewer full-time equivalent employees. In-kind Leveraged Resources: These involve additional types of support provided to assist HOPWA beneficiaries such as volunteer services, materials, use of equipment and building space. The actual value of the support can be the contribution of professional services, based on customary rates for this specialized support, or actual costs contributed from other leveraged resources. In determining a rate for the contribution of volunteer time and services, use the rate established in HUD notices, such as the rate of ten dollars per hour. The value of any donated material, equipment, building, or lease should be based on the fair market value at time of donation. Related documentation can be from recent bills of sales, advertised prices, appraisals, or other information for comparable property similarly situated.

Leveraged Funds: The amount of funds expended during the operating year from non-HOPWA federal, state, local, and private sources by grantees or sponsors in dedicating assistance to this client population. Leveraged funds or other assistance used directly in HOPWA program delivery.

B. Annual Performance under the Action Plan

Provide a narrative addressing each of the following four items:

1. Outputs Reported. Describe significant accomplishments or challenges in achieving the number of housing units supported and the number households assisted with HOPWA funds during this operating year compared to plans for this assistance, as approved in the Consolidated Plan/Action Plan. Describe how HOPWA funds were distributed during your program year among different categories of housing and geographic areas to address needs throughout the grant service area, consistent with approved plans.

2. Outcomes Assessed. Assess program goals against actual client outcomes for achieving housing stability, reducing risks of homelessness, and improving access to care. If current year results are lower than the national program targets (80 percent of HOPWA clients maintain housing stability, avoid homelessness and access care), please describe the steps being taken to achieve the national outcome goal in next operating year.

3. Coordination. Report on program coordination with other mainstream housing and supportive services resources, including the use of committed leveraging from other public and private sources that helped to address needs for eligible persons identified in the Consolidated Plan/Strategic Plan.

4. Technical Assistance. Describe any program technical assistance needs and how they would benefit program beneficiaries.

Technical Assistance is needed for grantee to help in reporting.

C. Barriers and Trends Overview

Provide a narrative addressing items 1 through 3. Explain how barriers and trends affected your program’s ability to achieve the objectives and outcomes discussed in the previous section.

1. Describe any barriers (including regulatory and non-regulatory) encountered, actions taken in response to barriers, and recommendations for program improvement. Provide an explanation for each barrier selected.

D. Unmet Housing Needs: An Assessment of Unmet Housing Needs

In Chart 1, provide an assessment of the number of HOPWA-eligible households that require housing assistance but are not currently served by HOPWA in this service area.

In Line 1, report the total unmet need of the geographical service area, as reported in *Unmet Needs for Persons with HIV/AIDS*, Table 1B of the Consolidated or Annual Plan(s), or as reported under HOPWA worksheet in the Needs Workbook of the Consolidated Planning Management Process (CPMP) tool. *Note: Report most current data available, through Consolidated or Annual Plan(s), and account for local housing issues, or changes in HIV/AIDS cases, by using combination of one or more of the sources in Chart 2.*

In Rows a through c, enter the number of HOPWA-eligible households by type of housing assistance whose housing needs are not met. For an approximate breakdown of overall unmet need by type of housing assistance refer to the Consolidated or Annual Plan (s), CPMP tool or local distribution of funds.

PART 3: Accomplishment Data - Planned Goal and Actual Outputs

In Chart 1, enter performance information (goals and actual outputs) for all activities undertaken during the operating year supported with HOPWA funds. Performance is measured by the number of households and units of housing that were supported with HOPWA or other federal, state, local, or private funds for the purposes of providing housing assistance and support to persons living with HIV/AIDS and their families. *Note: The total households assisted with HOPWA funds and reported in PART 3 of the CAPER should be the same as reported in the annual year-end IDIS data, and goals reported should be consistent with the Annual Plan information. Any discrepancies or deviations should be explained in the narrative section of PART 1.*

PART 5: Worksheet - Determining Housing Stability Outcomes

1. This chart is designed to assess program results based on the information reported in Part 4.

Permanent Housing Assistance	Stable Housing (# of households remaining in program plus 3+4+5+6=#)	Temporary Housing (2)	Unstable Arrangements (1+7+8=#)	Life Event (9)
Tenant-Based Rental Assistance (TBRA)	11

Reduced Risk of Homelessness: Short-Term Assistance	Stable/Permanent Housing 2	Temporarily Stable, with Reduced Risk of Homelessness	Unstable Arrangements	Life Events
Short-Term Rent, Mortgage, and Utility Assistance (STRMU)				
Total HOPWA Housing Assistance				

Background on HOPWA Housing Stability Codes

Stable Permanent Housing/Ongoing Participation

3 = Private Housing in the private rental or home ownership market (without known subsidy, including permanent placement with families or other self sufficient arrangements) with reasonable expectation that additional support is not needed.

4 = Other HOPWA-funded housing assistance (not STRMU), e.g. TBRA or Facility-Based Assistance.

5 = Other subsidized house or apartment (non-HOPWA sources, e.g., Section 8, HOME, public housing).

6 = Institutional setting with greater support and continued residence expected (e.g., residential or long-term care facility).

Temporary Housing

2 = Temporary housing - moved in with family/friends or other short-term arrangement, such as Ryan White subsidy, transitional housing for homeless, or temporary placement in institution (e.g., hospital, psychiatric hospital or other psychiatric facility, substance abuse treatment facility or detox center).

Unstable Arrangements

1 = Emergency shelter or no housing destination such as places not meant for habitation (e.g., a vehicle, an abandoned building, bus/train/subway station, or anywhere outside).

7 = Jail /prison.

8 = Disconnected or disappeared from project support, unknown destination or no assessments of housing needs were undertaken.

Life Event

9 = Death, i.e., remained in housing until death. This characteristic is not factored into the housing stability equation.

Tenant-based Rental Assistance: Stable Housing is the sum of the number of households that (i) remain in the housing and (ii) those that left the assistance as reported under: 3, 4, 5, and 6. Temporary Housing is the number of households that accessed assistance, and left their current housing for a non-permanent housing arrangement, as reported under item: 2. Unstable Situations is the sum of numbers reported under items: 1, 7, and 8.

Permanent Facility-Based Housing Assistance: Stable Housing is the sum of the number of households that (i) remain in the housing and (ii) those that left the assistance as shown as items: 3, 4, 5, and 6. Temporary Housing is the number of households

that accessed assistance, and left their current housing for a non-permanent housing arrangement, as reported under item 2. Unstable Situations is the sum of numbers reported under items: 1, 7, and 8.

Transitional/Short-Term Facility-Based Housing Assistance: Stable Housing is the sum of the number of households that (i) continue in the residences (ii) those that left the assistance as shown as items: 3, 4, 5, and 6. Other Temporary Housing is the number of households that accessed assistance, and left their current housing for a non-permanent housing arrangement, as reported under item 2. Unstable Situations is the sum of numbers reported under items: 1, 7, and 8.

Tenure Assessment. A baseline of households in transitional/short-term facilities for assessment purposes, indicate the number of households whose tenure exceeded 24 months.

STRMU Assistance: Stable Housing is the sum of the number of households that accessed assistance for some portion of the permitted 21-week period and there is reasonable expectation that additional support is not needed in order to maintain permanent housing living situation (as this is a time-limited form of housing support) as reported under housing status: Maintain Private Housing with subsidy; Other Private with Subsidy; Other HOPWA support; Other Housing Subsidy; and Institution. Temporarily Stable, with Reduced Risk of Homelessness is the sum of the number of households that accessed assistance for some portion of the permitted 21-week period or left their current housing arrangement for a transitional facility or other temporary/non-permanent housing arrangement and there is reasonable expectation additional support will be needed to maintain housing arrangements in the next year, as reported under housing status: Likely to maintain current housing arrangements, with additional STRMU assistance; Transitional Facilities/Short-term; and Temporary/Non-Permanent Housing arrangements. Unstable Situation is the sum of number of households reported under housing status: Emergency Shelter; Jail/Prison; and Disconnected.

End of PART 5

PART 6: Certification of Continued Usage for HOPWA Facility-Based Stewardship Units (ONLY)

Grantees that use HOPWA funding for new construction, acquisition, or substantial rehabilitation are required to operate their facilities for HOPWA eligible individuals for at least ten years. If non-substantial rehabilitation funds were used they are required to operate for at least three years. Stewardship begins once the facility is put into operation. This Annual Certification of Continued HOPWA Project Operations is to be used in place of other sections of the APR, in the case that no additional HOPWA funds were expended in this operating year at this facility that had been acquired, rehabilitated or constructed and developed in part with HOPWA funds.
